About the organization

This logo symbolizes the objectives of the organization.

- The words in the outer circle are from the great Indian epic "Mahabharat", saying that "nothing is above a Human". This is also the motto of the organization.
- The triangle in the inner circle symbolizes the hands of three people and stands for community development through participation.
- The light from the lamp in the small but in the centre symbolizes the development of the weakest and poorest person of the community.

Founder trustees of the organization were inspired by Gandhian thinking and work of great men like Albert Schweitzer. They felt deeply the agony and hopelessness of poor villagers. They saw the plight of villagers and felt a need of medical services in these villages. Hence they brought like minded friends together and founded Gram Seva Trust, an organization dedicated to rural health and development.

In 1994 the trust started a 30 bedded hospital with 5 staff members in an old dilapidated building, given by another trust. As the need arose the hospital was expanded to accommodate more patients and better services. Today the hospital can accommodate 100 patients and has all basic facilities required in a rural hospital providing health services at affordable rates and sometimes free of charge to the needy from nearly 300 surrounding villages of Navsari and Dang districts.

The organization also wanted to improve health of the surrounding villages hence as and when need was identified different community projects were started in the surrounding villages with main focus on health and development of women and children. Immense efforts are put in to decrease malnutrition. Gram Seva Trust also reaches out to the tribals in deep interior villages of Vansda and Dang through satellite centers and general medical mega camps arranged every year.

The organization has also started different projects for development of villages like Self Help Group project (a micro saving and micro lending project for women), trainings for income generation activities, adolescent girl project, tutorial classes to strengthen primary education and a Child Education and Development Centre to improve standard of education in children of landless labourers.

Vision

- Healthy, Happy, Self sufficient and Self-Empowered Rural communities.

Mission

- Cater to the Health need of every individual in the society irrespective of caste, creed or economic status.
- Render special care to women and children of our society.
- Promote curative and preventive measures in order to improve the general well being of the society.
- Uplift social and economical status as well as rural development with scientific and rational approach.
- Create awareness for healthy qualitative life and development.

Tribute

The sad demise of Shri. Nalinbhai J. Desai on 07/03/2020, our founder trustee and Hon. Secretary is a great loss to the organization. Nalinbhai has been continuously working for the last 25 years, for the development of the organization. He was a good orator and had excellent leadership qualities. He had developed personal relations with the staff with his loving and caring nature. Gram Seva family pays homage to Nalinbhai, whose loss will be felt forever.

Mr. Nalinbhai J. Desai

Death: 07-03-2020

Dear friends,

We are happy to present to you the annual report of our activities for the year 2019-20. This year has brought happiness to us, for we celebrated silver jubilee of the organization with our staff and friends in December. But towards the end, with the Covid 19 pandemic globally, it brought calamity, stress, grief and deep sorrow. During lockdown, when most of the private hospitals were closed or partially functioning, we have tried to provide general and emergency services through our general OPD, casualty, ICU, NICU, delivery facilities etc. We have also tried to provide masks, soaps and detergent and food grains to needy villagers in surrounding villages. (A short report is given on page 13). Thus, we present the activities and new projects in our hospital, community health and rural development programmes, during our 26th year of service.

With the continuing Covid 19 pandemic, the year 2020-21 will be a challenging year for all. We are trying to provide as many services as possible, but due to the pandemic and due to change in government policies we have to close some health services. The pandemic has also brought with it, economic crises. With the growing inflation it becomes difficult for us to provide health services at nominal rates but increase in unemployment and underemployment has decreased the paying capacity of the villagers and hence we have to give more relief and provide services at low rates. This is a financial burden to the organization and we look forward to support from our donors and well wishers. Then only the organization can reach to the poorest and remote interior areas like Dang and work for the health and development of the tribal and rural population.

Our friends, well wishers and donors have supported the organization for the last 25 years. We hope to receive their continuous support and help us in our mission towards rural health and development in the future also.

31st October, 2020
Kharel

Thank you,
Dr. Ashwin Shah,
(Managing Trustee)

We request you all to visit our new website www.gramsevatrust.org

NEW PROJECTS

Childline 1098 services

The Childline foundation, India, has been providing helpline services to children throughout the country. Gram Seva has been selected by Childline Foundation, to provide these services in Navsari district. Our Childline team will try to help any child aged 0 to 18 years, who is in a difficult situation and needs help. The team shall work with the support of district child protection department, police and local governing bodies. These are free services and any child or parent or guardian or any well-wisher can call on 1098 to avail these services. If any child needs counseling and guidance, it shall also be provided. These services are available 24 * 7.

Women's Health Project, Dist.Dang

The organization is working in Dang district through its two satellite centres at Shivarimal & Kudkas village. Dang district is hilly and tribal area with minimal health facilities and hence lack of health care and screening for the people. Lack of awareness, poverty and transportation issues are prevalent due to which patients come to satellite centres or Kharel at advanced stages of diseases. Our women's health camps in Navsari district, last year, showed us that, women lacked awareness about gynaecological diseases. After the camps, awareness increased and more and more women have started coming to Kharel hospital for gynaecological and breast complaints.

It was also our experience that women suffered from co-morbidities like high blood pressure, Diabetes, Anaemia etc. Dang being a tribal area there is high prevalence of sickle cell anaemia, a genetic disorder in the tribes.

To address all the above stated health issues, the organization along with The Desai Foundation Trust, Navsari and Unified Healthcare for Rural Underserved, U.S.A. started "Women's Health Screening Project, Dang" in the year 2019 – 2020.

Under this project we covered 98 villages. Total 1781 women were screened for Breast and gynaecological disease. Pap test, CBC, Sickle test, Thyroid test, Blood Sugar, Blood pressure measurement, mammography and ultrasound tests were done. We had made arrangements for mammography and ultrasound tests at BA hospital and Hiral Clinic, Navsari since no facility was available in the vicinity in Waghai block. Transport, lodging and boarding arrangements were made for the patients and relatives for these tests. It is disheartening that out of 350 women identified, who required further investigation and management, only 30 women came for treatment and completed it. On follow up it was found that these women did not come for further management due to lack of awareness, burden of work, distance from Kharel and fear. We also found that many women were symptomless and did not find it necessary to leave their daily work and go for check-up. The organization has decided to work more intensively in these areas and hence increase awareness amongst the community regarding these diseases and the need for their early diagnosis and timely management.

A paper on cervical cancer study from this project was published in the '**International Journal of Reproduction, Contraception, Obstetrics and Gynecology (IJRCOG)**' October 2019 issue, under the name of '**A community based study to determine incidence of cervical cancer and willingness of women to participate in cervical cancer screening program in Navsari, Gujarat, India.**'

**Table 1:**

Sr. No	Indicator	2019-20 (Dist. Dang)
1	Total PHCs covered	3
2	Total Villages Covered	98
3	Total Women Attended Camp	1781
4	Total Pap Smear Taken	1313
5	Total women screened for Breast Pathology	1557
6	Cancer patients detected (cervical/breast)	1/2
7	Suspected CA cervix/CA breast	34/1
8	No. of women had high blood pressure	225 (13.5%)
9	No. of women had high blood sugar	59 (3.4%)
10	Underweight (BMI < 18.5)	943(56.6%)
11	Normal (BMI 18.5 – 24.99)	629(37.7%)
12	Mild Anaemia (10 To 11.9)	1008 (59.6%)
13	Moderate Anaemia (7 To 9.9)	197(11.6%)
14	Severe Anaemia(< 7)	28 (1.7%)

Silver Jubilee Celebrations

The organization celebrated its silver jubilee this year. It was started in 1994 with the aim of health care and rural development in tribal area of south Gujarat. We celebrated the Silver Jubilee of the organization on 28 and 29th December 2019, with our friends, well-wishers, different NGOs, past and present employees and their families. Lord Bhikubhai Parekh, Mr. Jayantibhai Patel and Dr. Rajshekhar Bramhbhatt graced the occasion with their presence. Memories of these 25 years were displayed as a gallery of photos and a video made by Mr. Deepak Bavaskar and team, depicting the work of the organization over these years was presented. Past trustees were presented with a memento. A book launch was also organized and Gujarati Training Module for Adolescent Workshop and Question and Answer Booklet

for Adolescents, were released by the eminent guests on this occasion. All guests (about 700), were presented with a 25 year special report written by Mr. Dankesh Oza.

Cultural Program by Staff and their families

A cultural programme was organized for the staff and their families on the 28th December evening, where they presented a variety of songs, dance, plays etc. The entire programme of about 2 to 3 hours was enjoyed by the staff, their families and guests. The occasion helped enhance the harmony in Gram Seva family, helped the staff to relax and enjoy and also displayed various hidden talents and skills in the staff.

The documentary on 25 years of work of the organization is available on these links

Let the beauty of what we love be what we do

■ Rumi

Regular activities

Hospital Services

As the population increases, need for medical services is increasing in rural areas. But majority of the rural population (60 to 80 percent) cannot afford the medical expenses in private hospitals. Our 100 bed well equipped secondary level hospital at Kharel tries to provide rational, quality services at affordable prices to the community. Patients from more than 300 surrounding villages of Navsari, Dang and Surat come to the hospital for medical services. Medicine, Gynaecology, Paediatrics, Surgery, Orthopedic, Dental, Physiotherapy, skin, Psychiatry, Plastic surgery, Eye department are available. Facilities like OPD, Indoor, Operation Theatres, Delivery rooms, ICU, NICU, Dialysis, Laboratory, X-ray and emergency services are also available. We try to provide most facilities to the patients under one roof so that they do not have travel here and there for services. The organization tries to update the hospital services as per the needs of

the community.

Antenatal Care

Pregnancy is a natural physiological phenomenon but sometimes it may become life threatening for the mother and/ or the baby. All pregnant women need antenatal care and safe delivery services to prevent any morbidities and mortalities. To provide such services to the poor, rural, tribal women in these villages, we run free antenatal clinics thrice a week wherein antenatal check-up, laboratory tests and medicines are given to the women. They are also counseled regarding antenatal care, nutrition and preparations for safe delivery. This year 3190 pregnant women attended the free antenatal clinics out of which 1542 were delivered. About 78% i.e. 1217 women who delivered were given completely free services.

Neonatal intensive care unit (NICU)

As mentioned above, sometimes complications during pregnancy and delivery can be life threatening for the baby. And sometimes the growth of the baby in the womb is not adequate or the baby has been prematurely delivered. Such babies require early, intensive care to save their lives. Neonatal intensive care units are available, but in distant cities and are expensive. Since the pregnant women coming to the hospital are young, undernourished and do hard labour till their delivery, a high percentage of babies, born in our hospital are preterm or have low birth weight. To provide them intensive care, near their homes and at very affordable rates, we have started our NICU. Out of 262 babies admitted in the NICU 234 were saved. These babies are followed regularly at the hospital even after their discharge from the NICU. 186 (79%) babies came regularly for follow-up.

Table 2:

S.N.	Department	2019-20	2018-19
1.	OPD Patients (New)	22579	23234
	(Old)	52379	50926
	Total Patients	74958	74160

4.	Surgery	2091	2103
5.	Delivery	1542	1408
6.	T.B. Patients	78	74
7.	Laboratory Invesg. / No.of Patients	170400 / 28400	178800 / 29800
8.	X-Ray	4555	4480
9.	Sonography	1211	1023
10.	Physiotherapy	2152	3031
11.	Total Dialysis sessions	1751	1113
12.	Snake Bite Patients Treated	75	100
13.	Free Food Dishes	69873	74085

Dialysis Centre

Due to increase in diseases like Diabetes and High Blood Pressure, we are also seeing an increase in kidney disorders. These patients need regular dialysis (as frequently as 2 to 4 times a week). The high frequency and long treatment is expensive for the rural patients. It also becomes difficult for them to travel to cities so frequently. Hence we had started a Dialysis centre, in our hospital. We are also associated with the government health insurance schemes like MA yojana and Ayushman Bharat, so that the patients get free dialysis sessions under these schemes. This year

1751 sessions were conducted out of which 1720 were free of charge.

Eye Department

Cataract is a major cause of vision defects and blindness in the elderly. In rural areas the elderly are physically and economically dependent and hence blindness due to cataract is a major burden. Our 'Sukhabhai Govindji Eye Department', provides affordable eye services to such patients. Every month we conduct free eye camp in the hospital, do free cataract surgeries and distribute free spectacles to poor patients. This year 5576 patients benefitted from these services out of which 191 were operated and 1229 were given free spectacles.

Satellite Centres

The tribal population of deep interior forest area of Dang, travel far in search of affordable health services. To provide them health services near their homes, we had started health centres in Kudkas and Shivarimal villages in Waghai block of Dang district. Our team of doctors and paramedical staff visits each of these centres once a week and conducts a health clinic there. This year 5435 were treated out of which 168 patients were brought to Kharel hospital for further management.

General Medical and Surgical Mega camps

We arrange free general medical and surgical mega camps every year in Dang and interior areas of Navsari and Tapi districts. About 1000 patients are examined in these camps by surgeons, physicians, gynaecologists, orthopaedics, ophthalmologists, paediatricians etc. Those needing minor medical care are given treatment in the camp and those requiring further medical and surgical management are brought to Kharel hospital and managed as per their need. Nearly 250 patients are brought to Kharel for further clinical management. Since these camps provide complete and free medical management many needy people wait anxiously for these camps to get treatment. This year we conducted four such camps. We are also thankful to the local schools and NGOs in helping us advertise and organize the camps.

Annapurna Bhojanalay

With the help of generous donors we provide two meals and milk twice

a day to patients and one attendant in general wards and at concessional rate for others. This saves them time and money to travel to and fro from their village for food. Especially for patients from interior villages. This year 69873 free food dishes were provided to patients.

Medical Relief

Majority of the people in rural areas are needy and cannot afford expensive treatment. It is our motto that no one should be denied medical services for lack of money. Hence we provide low cost affordable medical services in our hospital. Yet many patients are unable to pay and we have to give partial or complete relief in their bills. This year 60.45% patients were given a relief of Rs. 2,75,54,442/- Since last three years we are also giving free medicines in our OPD which cost us Rs. 12,03,703/- We are thankful to our donors and hope for their continuous support in these activities.

Table 4:

Particulars	2018-19		2019-20	
	Kudkas	Shivarimal	Kudkas	Shivarimal
Total visits	49	49	51	49
General patients	3869	1862	3469	1604

Total surgeries :191	● Dr. Aarti and Shailen Banker
Total spectacles given: 1229	● In memory of Late Mr. Arvindbhai and Mr. Gunvantbhai Patel by Mrs. Manisha Prakash Patel (U.K)
	● Laila, Jay, Sumeru Naik &family (U.S.A.)
	● District Blindness Control Society, Navsari

New instruments and facilities

To provide good quality services to the patients and improve day to day administration we need to update our instruments and bring new facilities periodically. This year we

had following new facilities in our hospital.

1. Roof top solar electricity plant- this will help reduce electricity charges
2. Continuous oxygen line to the rooms and

wards—for the benefit of serious patients and in emergencies

3. Increase capacity of Reverse Osmosis mineral water plant, to 2000 litres of water.

Community Health Projects

Child Health and Nutrition Project

Malnutrition is a major health problem amongst the tribal children. This affects not only their present but also their future health status. Hence we have adopted 100 Anganwadis(child care centres in the villages) in 22 villages and conduct health checkup, screening for malnutrition and other illness, health education to the families, counseling and provide referral services to all children under 6 years. We know that the first 1000 days of a child are crucial in his/her growth and development. These 1000 days are also important to decrease the malnutrition in children in the community. Hence we have started giving special focus to 0-2 years old children in all these anganwadis.

Last year we followed 1363 0 to 2 years old children, provided health and nutritional services to them and monitored their growth and development.

Antenatal Care Project

While we know that malnutrition is a major health problem in tribal children, we also know that inter-generational factors are the common causes. Young, undernourished adolescents become young undernourished mothers and give birth to premature or low birth weight babies, who grow to become malnourished children. To break this cycle we identify pregnant women in the villages, screen them for malnutrition and other risk factors. Counsel them and their families, regarding antenatal care with

special focus on nutrition and safe delivery. This year 812 pregnant women were followed, screened and counselled. Out of which 533 were delivered. All were delivered in safe institutions and there was no maternal mortality. All those delivered are followed post-delivery and counselled regarding nutrition, new-born care etc.

Adolescent Health Education

The adolescent age of 10 to 19 years is full of physical, mental and emotional changes during which they need proper guidance and care. We conduct one day workshops for adolescents in high-schools, during which we try to discuss with them what changes they are experiencing or will experience and

Table 5:

Sr.	Date	Venue	Donors	Total patients
1	14/04/2019	Anaval	Shukleshwar Mahadev Trust	316
2	17/11/2019	Zervavra	Mrs.Nayna and Mr. Dinesh Shah & family (U.S.A.)	732

4	16/02/2020	Lavchali	Mrs. Urmilaben Sumanbhai Shah, Mrs. Kashmiraben Bharatbhai Shah, Mrs. Usha Hiteshbhai Shah, Mrs. Jessica Mayurbhai Shah and Mrs.Nikita Sanjaybhai Shah (U.S.A.)	1068

Table 6:

Year	0 -2 year children registered	Normal	Mild Malnutrition	Severe Malnutrition
2018-19	1434	914(63.7%)	415(28.9%)	105(7.3%)
2019-20	1363	888(65.15%)	380 (27.87%)	95 (6.9%)

why do they occur. We also discuss with them what health hazards they may face and what care should be taken. This year we worked with about 2420 students from 14 high schools. We also conduct monthly meetings with non-school going adolescents in villages and conduct health education sessions with them on various topics like adolescent changes, nutrition, addictions, menstrual hygiene, legal age of marriage etc.

Geriatric Project

With increase in life expectancy, we are seeing more number of elderly in the villages and increase in age related diseases like cataract, hypertension, diabetes, arthritis, deafness etc. Hence we have started door to door screening of people aged 50 years and above, for these diseases and treating them. We are also conducting health awareness activities in villages regarding these diseases and life style changes to

Table 7:

Sr.No	Particulars	Adol. Girls	Adol.Boys	Total
1	HE sessions in villages /year	849	254	1103
2	Avg. sessions /month	71	21	92
3	Avg .attendance / month	1109	294	1403

overcome them. A total of 5784 people were screened in 15 villages. About 2400 people were suffering from some health problems as given in the table below. These patients are not only counselled to start treatment but followed regularly for compliance.

Health Awareness Project

The importance of health awareness in behaviour change and improvement of the health of the people is irrefutable. Hence we have incorporated health education as a fundamental activity in all our projects. Be it health education in hospital wards, during antenatal and post natal clinics or

in the evenings. Health education sessions are also conducted in the villages for different age groups like adolescents, geriatric, pregnant women, lactating mothers, parents and family members of young children, self-help group women etc. It is our experience that these sessions have helped improve the timely health seeking behaviour of the community.

Primary School Health Project

To inculcate healthy habits in primary school children we have been conducting a health, nutrition, hygiene awareness project in the surrounding villages. Our trained volunteers visit the primary schools

Table 8:

Primary School Health Project Reviews

"Students of std. 1 to 5 have gained knowledge about many health related facts that shall be helpful to them and their families. We hope that the organization continues such activities in future and involves our school in them"

Principal Kangwai Dalia Falia Primary School

"Our students learned about health, nutrition and hygiene through these sessions. These sessions have been very useful and we see improvement in the children after these sessions"

Prinicpal Minkutch Primary School

Amulbhai lived with his wife and small child at Chabdi. He is a known case of Sickle cell disease, a genetic disorder in the tribal population. Due to which he is unable to do strenuous work. Hence his income is low. His wife goes for farm labour to support the family. During covid 19 lockdown, work was not available and it became difficult for them to procure their daily rations. Our field workers informed us about this family and many others like them. With the help of donors we could provide food grains kits to such families that helped them survive during lockdown. A total of 620 kits were distributed.

every month and conduct 6 sessions for each classes. These sessions are on various health related topics suitable for the age group. The salient feature of these sessions is

that they are conducted through games and songs, to make them interesting for the young ones. This year 382 sessions were conducted for 1428 students of 21 primary

schools of Chikhli block. The sessions are appreciated by the children and the teachers.

Rural development

Clean water, sanitization, increase in education, increase in livelihood, role and status of women in family and community, are factors that will help improve rural health. This was also the ideology behind Mahatma Gandhi's "Swaraj". Following this ideology we conduct various rural development projects based on the need of the community.

Women's empowerment Projects

The organization conducts various activities for the development of tribal women and adolescent girls under the ROSHNI project.

Sewing Classes

A six months course is conducted in our sewing classes for young women. The objective is to empower them with some vocational skills so that they are able to earn some livelihood and help their families. More than 1200 young women from surrounding villages have attended these classes, to become self-employed and self-reliant.

Handicrafts and Household Products

Local women are trained in production of handicrafts and household products. They are also helped in marketing and

sales through a retail outlet in the campus, fairs in surrounding villages and annual exhibition cum sale of products. This year the sales have reached to about Rs.5, 54,746/-, thus enabling the women to become self-reliant and support their families.

Sakhi Mandal Trainings

The government has started Sakhi mandals (micro-credit groups of women) in villages with the aim to empower rural women. These women need trainings in group administration and management to enable proper functioning of groups so as to achieve their objectives. We have been selected by Mission

Lesson in teamwork

Khushi was a 26 year old female from interior areas of Vansda. This was her first pregnancy and she was taking regular antenatal care at Cottage Hospital Vansda. Khushi previously had slight swelling of her right leg due to filariasis. But during her pregnancy the swelling in her right leg increased significantly. Hence her doctors did some further tests, which showed that there may be thrombosis of the deep veins of her right leg. This is a very risky situation as the blood in her veins may clot and these clots may reach her lungs or any other important organ leading to complications which can be fatal. Hence Khushi needed utmost care and treatment at higher centre. She was advised to go to Surat for further management till her delivery. Surat was more than 100kms away from her home. Khushi and her husband had never been to Surat. They were young and scared of the situation. They tried to consult other gynaecologists. About 6 to 7 gynaecologists advised them to go to Surat. So they came to Kharel hospital, where the gynaecologist after studying her reports advised her the same. She was explained in detail about her illness and why it was needed to go to Surat. But nearly 9 months pregnant Khushi and her husband insisted that they had no family support and Surat was a big unknown city. They were tired of going from one doctor to another and requested to conduct her delivery at Kharel. So with great risk, her treatment was started at Kharel. A senior haematologist was consulted for medical management of her deep vein thrombosis. Some further tests were also advised by the haematologists, which were done. These tests showed that her swelling may be due to her previous history of filariasis and not due to deep vein thrombosis. This was a boon. Khushi completed her full term without any complication and underwent caesarean and delivered a 3.126kg baby. It was satisfying to see both mother and child were well in their regular follow up. Thus teamwork, co-ordination and communication between gynaecologists, physicians and experts in various medical fields is crucial in management of patients. In this case Khushi did not have to go to a higher centre far away from her home.

Grid, determination and continuous support helps a tribal woman complete her treatment

Kokilaben was a 46 year old woman from interior village of Dang attending our women's health camp in Waghai block. She knew that she had a huge breast lump but due to her poor condition and lack of access to medical services nearby she could not do anything about it. We arranged for free mammography and further tests at Navsari, in which she was diagnosed with breast cancer. She was advised to undergo surgery immediately. But they could not afford the surgery. We conduct general medical and surgical camps in interior villages, with the support of donors, for such patients. Kokilaben's surgery was done free of charge in this camp. She was advised radiotherapy at cancer hospital in Navsari. On follow up we found that she had not started her radiotherapy. Since her family had been registered under the government's social insurance scheme, she would have received the radiotherapy free of cost, but she had been advised further tests at the cancer hospital which she could afford. Hence we supported them monetarily in doing these tests which cost about Rs. 13,000. Her treatment was further delayed due to lockdown during Covid 19 pandemic. When public transport service was started again, we requested the Bus depot manager to give her some concession as she had to travel 200km, to and fro for 6 weeks to complete her treatment. They were given bus passes which helped her complete her treatment of 6 weeks. Kokilaben's case showed us how difficult it is for poor people in interior villages to have access to health services and they require continuous support at every level.

Mangalam (National Rural Livelihood Mission) to train these groups in Navsari District. This year 660 women from 132 groups of 44 villages were given training. We hope to continue our work with these women even after their trainings and help in the development of these groups through more and more livelihood projects.

Sangee Sanitary Napkins Project

We started this project, with the aim to provide low cost eco-friendly sanitary napkins to young women, in their hamlets. The project also helps develop a source of livelihood for the rural women through manufacturing and sale of Sangee sanitary napkins. The added advantage is that these napkins are made with environment friendly materials thus preventing any pollution and any adverse health effects. This year about 156 local women joined this project and sold around 33850 packets. Thus earning Rs.8,31,656/- in one year.

Sanitary Napkin vending machines

With financial Support from Mr.

Mahendrabhai Patel (Ahmedabad) we installed Sanitary napkin vending machines in 10 high schools in surrounding areas. This will help about 3622 female students to have easy access to sanitary napkins in case of emergencies and thus not miss any school days. We also conduct health education sessions in these schools regarding menstrual hygiene and how to use this machine.

Kitchen Garden Project

The rural women are familiar with agricultural activities. Most of them work as farm labourers. Hence they are more interested in learning skills and participating in income generation activities related to farming. 40 women have been taught technical aspects of vegetable growing and motivated to start kitchen gardens in small spaces around their homes. More focus has been given to iron rich vegetables so that their families consume more iron and indirectly prevent anaemia. They are also given training on importance of iron in prevention of anaemia, increasing nutrient contents of their staple foods and

how to prevent loss of nutrients while cooking. This year these 40 women grew 5 different types of vegetables and produced about 24kg vegetables per family in winter.

Education Projects

Parodh Balawas

Many tribal families migrate to brick factories and saltpans for livelihood for about 8 months a year. They generally take their children with them, which affects their education. Hence we started Parodh Balawas a residential child education and development centre, where the children of migrant tribal families are given education facilities while their parents are away. The centre, which is built on green concept with rainwater harvesting, solar heating, electricity conservation etc., can house about 100 children of migrant families. Efforts are made to provide an environment based on self-reliance, value education and overall development of these children. This year 4 students passed their secondary (10th grade) and 3 students passed their higher secondary (12th grade) board

exams.

Shiksha Parab

Poor performance in primary education is the cause of high dropout rate in secondary schools.

Hence we have started tutorial classes in villages where the primary education is strengthened to help children continue their secondary education. These centres are setup in those hamlets where parents are

illiterate, farm labourers and their children need guidance and support, the most. This year 363 students of std.1 to 4 attended these classes in 14 such centres.

Other activities

Career guidance and Aptitude test

Students in rural areas do not get the opportunity of guidance and counselling regarding their aptitude and choice of career. Hence with the technical support of "MA Foundation", (Vapi) and their staff, one day career guidance and aptitude test was organized for 10th and 12th grade students from the villages. About 200 students were given personal counselling and guidance on the basis of their aptitude test by education counsellors from MA Foundation.

Summer camps

Every year we organize summer camps with the objective of increasing the exposure of the village children to different extracurricular activities. This helps in identifying

their interests and personal development. This year the summer camps were supported by Mrs. Amitaben Pratikbhai Desai (Kuwait). Many team games, handicrafts, story-telling, scientific toy making and other activities were organized for the children. About 304 children studying in primary schools enjoyed the 2 day camps organized this year.

Pitara Book fair

Habit of reading books is declining and hence to encourage more and more children to read books we organized a Pitara Book fair by ARCH organization, Dharampur. Children's books of all genre and in affordable range were displayed for children. Children were also encouraged to sit and read and then choose their books.

Best out of waste workshop

A best out of waste workshop was organized for the local women, with the support of Mrs. Amitaben Pratikbhai Desai (Kuwait). Women were taught to make handicraft and decorative items out of waste. 62 women enthusiastically participated in this workshop.

Candle making workshop was organized with the support of Desai Foundation (U.S.A.). 22 women were given training in making decorative candles for festivals like Diwali and Christmas. Many of these women have started making candles for their families and friends and also selling them

Annual cultural program and Picnic

Every year before leaving for their

Case Study

Sunil name changed, a 16 year old boy from an interior village in Maharashtra, tired easily and had difficulty in breathing on exertion. He could not even walk, without becoming breathless. He was being treated for Tuberculosis by local private doctors but there was no improvement. Hence he was brought to Kharel hospital. When Sunil was examined, it was found that fluids had accumulated around his lungs and in his abdomen. This excess fluid was removed and he was given treatment and sent home when he felt better. But a few days later he was brought back with same problem. He needed expert opinion and hence he was sent in our hospital ambulance to Apple Hospital and SIDS hospital for physician and gastroenterologist opinion. After further tests, Sunil was diagnosed with pancreatic pleural fistula. This was a rare complication of infection of pancreas and he needed immediate surgery. By this time lockdown for Covid had started in India. Most of the health setups were attending emergency cases only. But since Sunil's condition was serious and the doctors decided to do his surgery. He was operated in Surat and brought back to Kharel for post-operative care. The whole process cost more than Rs.50000/-, but all the three hospitals did not take any charges and gave free services. Sunil came for follow up after his discharge and is doing well. Thus proper diagnosis and team management helped save a young life.

summer vacation our students in Parodh Balawas organize a cultural program. This year the students presented various plays, dances and songs. This is yet another opportunity for education and fun. The students look forward to this event and perform for their parents, staff and friends. We also organized a picnic to Surat zoo for the students.

National Social Service (NSS) Camp

This year we provided facilities to organize a 7 day camp for 80 NSS students of Gharda College, Navsari at Parodh Balawas. The annual camp is an opportunity for students to experience different aspects of rural life, their trials and tribulations and efforts for their development. In this camp, the students helped us to organize eye camp and blood donation camp for the villagers.

They also participated in cleaning drive around the hospital and in the villages. Our doctors gave talks on health and nutrition to the students.

Women's Health Camp at Shivarimal

This year we also supported the Aga Khan Rural Support Program team in Dang to organize a women's health camp at Shivarimal centre. Women were examined by gynaecologist and given treatment.

Other news

Fire and Safety Mock drill

In order to train the staff in using the fire safety appliances in emergencies, we arranged a mock drill. Use of various different types of fire extinguishers and other care was explained to the staff.

Educational tour for Community Health Workers

An exposure visit to Sewa Rural, Jhagadia, was organized for community health workers. 28 workers visited the organization to see their health activities and community work..

Diploma Course for Gynaecology and Obstetrics

The hospital has been recognized as training centre for students of College of Physicians and Surgeons, Mumbai. Dr. Dinesh Baldania and Dr. Jaydeep Nakum have joined us this year as CPS students. They will be trained for 2 years in CPS Diploma in Obstetrics and Gynaecology.

Acknowledgement

We heartily acknowledge and thank all for their help and support and we take this opportunity to express our heartfelt gratitude.

- All the well-wishers and donors in India and abroad who support us in achieving our objectives.
- Lord Bhikubhai Parekh, Mr. Jayantibhai Patel and Dr. Rajshekhar Bramhbhatt and all invitees, for honouring us with their presence in the Silver Jubilee celebrations.
- Mrs. Bhartiben and Mr. Dankeshbhai Oza for their honorary services in writing the 25 years report.
- Mr. Deepak Bavaskar and Team for making a documentary about the work of the organization.
- Mr. Kamlesh Panchal (Abstract Creative, Navsari) for making our website and timely printing of 25 years report.
- Mr. Vijaybhai and Chiragbhai Shah, (Chirag Offset, Ahmedabad) for printing the Adolescent module in short duration and free of charge and Mr. Sureshbhai Desai (Surat) for his help.
- Unified Healthcare for the Rural Underserved (UHRU), U.S.A and Desai Foundation (U.S.A.) for their monetary support for the Women's Health Project.

- Our trustees, full-time and visiting doctors, consultants, our dedicated staff and volunteers without whom we could not achieve anything. Also all doctors giving their services in our medical camps.
- All donors and supporters who came forward with their help during Covid Pandemic
- All known and unknown persons for supporting the organization.

Strength does not come from winning. When you go through hardships and decide not to surrender, that is strength

■ Mahatma Gandhi

Summary of relief activities conducted by Gram Seva during the Covid Pandemic

With Covid19 pandemic still raging globally, not only the health but the economic and social status of communities is affected. Gram Seva is also struggling to reach to the community and help them in this crises as much as possible. The hospital services have continued without any break during lockdown. When most private hospitals were closed or partially functioning we have continued our general OPD, obstetric services, ICU, NICU, Indoor facilities and emergency services. Some services had to be closed under government orders. The rural community around the hospital are mostly landless tribal families and wage earners, the lock down had a severe economic effect on them. We have tried to help with food grains, masks and soaps etc.

- When all attention is focused on Covid 19, patients with other health problems are at a loss about where to seek health services. Gram Seva has treated more than 27430 patients in its out-patient department during the period April to Sept'20. About 1724 patients were hospitalized for medical management. Total 586 deliveries were conducted and 624 surgeries, 1449 dialysis sessions were also conducted. 120 newborn babies were given NICU care. And 189 patients were admitted in ICU. 101 Snakebite patients were treated
- People in the villages were facing severe economic

crises due to lockdown and subsequent loss of work and wages. The hospital was already giving free medicines in OPD. So the management decided to provide OPD consultation @ Rs.10 for all patients. The hospital is known for its low charges for all clinical services, yet the management decided to give 25% relief to all indoor patients in their bills. Those patients who were unable to pay even that were given more relief.

- Total relief given in OPD- Rs.1,59,580
- Total 622 indoor patients were given a relief of Rs.9,03,445 in their bills.
- During lockdown and later on partial relaxation in curbs, daily wage labourers lost their livelihood and hence faced difficulties in procuring food for their families. Especially those families who had no ration cards, could not get free food grains from the public distribution system. Gram Seva helped 620 such families by providing food kits during this period.
- 70 children and their families from Balawas were provided with food grains from the Mid-day meal project of the government.
- Seeds for Kitchen gardening were distributed to 98 families.
- Using Masks is the only vaccine till a new one is discovered. Hence, Gram Seva distributed

18245 masks in surrounding villages and to patients coming to the hospital.

- Soaps and Detergent powders were distributed to 8500 poor families
- A van giving voice messages regarding Covid 19 was sent in 305 hamlets of 22 villages in surrounding areas, to increase awareness in the community.
- At the same time 1500 posters giving information on prevention of Covid 19 infection and nutrition during this pandemic were displayed in various places in the villages.
- 350 children were given drawing books and colors with messages regarding Covid 19 infection like washing hands, wearing masks, social distancing etc.
- 591 pregnant women and 1195 children below 2 years of age were regularly followed telephonically by health workers and counseled regarding their health, safe delivery, nutrition, emergency medical care etc.
- 1527 patients suffering from diseases like hypertension, diabetes, ischaemic heart disease, mental illness, asthma, thyroid etc were followed telephonically and medicines were sent to them if needed.
- 69 children from Parodh Balawas who were sent home during the lockdown, were regularly sent weekly study

materials. Ex-students and students in higher classes were recruited to impart education to these children in their hamlets, during this period.

Our Support

Many donors and well-wishers came forward voluntarily to help us and contribute in this war against corona. We are thankful to them for supporting us in these trying times.

Our special thanks to

1. Sheth Damjibhai Lakshmichand

Jain Dharm Sthanak (Trust), Mumbai, 2. Mr. Nimeshchandra VasANJI Vashi,(Surat), 3. Shri Samast Leuva Patidar Samaaj (Navsari), 4. Mr. Chghanbhai Dhanjibhai Mistry, 5. Ujjwal Dharm Mahila Mandal (Mumbai), 6. Shamdasani Foundation (Hongkong), 7. Mrs. Surbhi and Mr Pushkarrai Shah, Gandhinagar, 8. Dr. Upendra Kalaigar, Surat and 9. Mr. Umesh Shah Mumbai for their monetary support. 10. P.J.Desai Trust, Valsad, for ventilator, 11. Mrs. Amita Pratik Desai (Kuwait) for 10,000 cotton masks. 12. Rotary club of Gandevi for PPE

kits and masks for staff, sanitizer machine, surface cleaners, gloves and thermometers. 13. Shri. Sumanbhai Parmar &friends (Kacholi) for 3000 cotton masks. 14. Mr. Raj Soni (New Delhi) for PPE kits and masks for staff. 15. Aspi Agro Charitable trust, for Sanitizer machine. 16.Mr. Mukesh Mehta (Bilimora), PPE kits and mask for staff. 17. Lions Club Navsari for PPE kits and sanitizers 18. Mr. Jaykumar Shah, Khaparia for Sanitizer Machine and 19. Desai Foundation for 5000 cotton masks.

We are also thankful to Mr. Deval Desai and donors of Gram Seva Foundation, Chicago, U.S.A., who started a matching grant, food donation drive. Mr. Desai added matching grant to the 7409\$ generated by this drive, thus collecting total amount of 14818\$.

*Let me hold the door for you,
I may have never walked,
A mile in your shoes,
But I can see that,
Your soles are worn,
And your strength is torn,
Under the weight of a story,
I have never lived before.
So, let me hold the door for you,
After all you've walked through,
It's the least I can do.*

■ Morgan Harper Nichols

Different Activities and Events organized by the organization

Sr. No	Date	Activity	Venue	Person
1	4/05/2019	Parodh Balawas - Annual function	Parodh Balawas	Invited Guests, Trustees, Parents & Staff

AUDITORS' REPORT

(Under sub section (2) of section 33 and 34 and Rule 19 of the Bombay Public Trust Act 1950)

Registration No. : E/896/Navsari
 Name of the Trust : GRAM SEVA TRUST
 For the year ended : 31st March 2020

We have audited the annexed Balance sheet of GRAM SEVA TRUST [(Reg.No E/896/ Navsari) situated at : N. H. No. 48, At & Post: Kharel, Dist: Navsari 396430] as on 31st March 2020 as well as Income and Expenditure Account for the year ended on 31st March 2020.

We have conducted our audit in accordance with auditing standards generally accepted in India. These standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

- The accounts are maintained regularly and in accordance with the provisions of the Act and Rules
- The receipts and disbursements are properly and correctly shown in the accounts
- The cash balance and vouchers in the custody of the treasurer or trustee on the date of the audit were in agreement with the books of account
- All books, deeds, accounts, vouchers or other documents & records required by us were produced before us.
- A Register of movable and immovable properties has been maintained and the changes therein have been furnished to us.
- All the necessary information required by us has been furnished to us by the Trustees personally whenever called upon
- No property or funds of the Trust were applied for any object or purpose other than for the object or purpose of the Trust
- There are no amounts which are outstanding for more then one year and written off
- For repairs, tenders are not invited but for construction involving expenditure exceeding ₹ 5000/-, tenders are invited
- The money of the trust have not been invested contrary to the provisions of section 35 of the Act.
- There is no alienation of the immovable property contrary to provisions of Section 36
- There are no cases of irregular, illegal or improper expenditure or failure or omission to recover money or other property belonging to the public trust or of loss or waste of money or other property thereof.
- The provision of Budget to be filed under Rule in the form under Rule 16A is not applicable to the trust. However, the Trust has policy to prepare the Annual Budget.
- The maximum and minimum number of trustees is maintained during the year.
- The meetings are held as provided by such instrument.
- The Minutes Books of proceedings of the meetings are maintained.
- None of the Trustees has any interest in the investment of the trust.
- None of the trustees is any debtor of creditor of the trust.
- The irregularities pointed out by the Auditors in the accounts for the year under audit are have been duly complied with by the trustees.
- There is no special matter, which we think fit or necessary to bring to the notice of the Deputy or Assistant Charity Commissioner

Gram Seva Trust

Dr. A. A. Shah
(Managing Trustee)

You can help us...

Gram Seva Trust strives for Health and Development of Rural Communities, especially, its weaker sections like women, children and the elderly.

The activities of the organization depend on donations and hence there is a perennial need of donations and help. We sincerely request you to join us in these activities through your voluntary donations in cash or kind for the following:

Permanent Donations Scheme

1. Poor Patients Relief Fund.
 2. Eye Care Fund.
 3. Bhojnalay(Kitchen) Fund.
 4. Women Empowerment Fund.
 5. Children's Welfare Fund
 6. "Parodh Balawas" Funds
- } Interest shall be utilized from Corpus fund.
7. Anniversary Donations: these are donations on birth, death or any other anniversaries for treatment or food for the patients. The interest on the amount shall be utilised on the same day every year for the same purpose. ₹. 15000/- for this fund is accepted. The Donors name shall be displayed on a board that day.
 8. One Meal for Hospital Patients- ₹. 2100/- (20 U.S.\$)
 9. One Meal for "Parodh" Balawas children- ₹. 2100/- (30 U.S.\$)
 10. Eye Camp- An eye camp and free cataract operations of all those coming in the camp are organised on donation of ₹. 40000/- (800 U.S.\$) and ₹. 1500/- (25 U.S.\$) for one cataract operation.
 11. Support Education Expense of One Parodh Balawas Child: ₹.36000/year (600 U.S.\$/year)
 12. General Donation

We also need donations for hospital and Balawas equipments. Kindly contact our office for more information.

We shall be happy to receive voluntary services in any of our activities like child education, skill development of youth and women, development of database, IEC materials, library, documentation etc.

Donations can be sent through cheques, Demand drafts or direct transfer, in the name of Gram Seva Trust.

All donations are tax exempted under 80G in India.

Donations in U.S.A, can avail tax exemption if donated to Gram Seva Foundation a 501(c)(3) tax exempt charitable non profit.
