About the organization

This logo symbolizes the objectives of the organization.

- The words in the outer circle are from the great Indian epic "Mahabharat", saying that "nothing is above a Human". This is also the motto of the organization.
- The triangle in the inner circle symbolizes the hands of three people and stands for community development through participation.
- The light from the lamp in the small but in the centre symbolizes the development of the weakest and poorest person of the community.

Founder trustees of the organization were inspired by Gandhian thinking and work of great men like Albert Schweitzer. They felt deeply the agony and hopelessness of poor villagers. They saw the plight of villagers and felt a need of medical services in these villages. Hence they brought like minded friends together and founded Gram Seva Trust, an organization dedicated to rural health and development.

In 1994 the trust started a 30 bedded hospital with 5 staff members in an old dilapidated building, given by another trust. As the need arose the hospital was expanded to accommodate more patients and better services. Today the hospital can accommodate 100 patients and has all basic facilities required in a rural hospital providing health services at affordable rates and sometimes free of charge to the needy from nearly 300 surrounding villages of Navsari and Dang districts.

The organization also wanted to improve health of the surrounding villages hence as and when need was identified different community projects were started in the surrounding villages with main focus on health and development of women and children. Immense efforts are put in to decrease malnutrition. Gram Seva Trust also reaches out to the tribals in deep interior villages of Vansda and Dang through satellite centers and general medical mega camps arranged every year.

The organization has also started different projects for development of villages like income generation activity, trainings for income generation activities, adolescent girl project, tutorial classes to strengthen primary education and a Child Education and Development Centre to improve standard of education in children of landless labourers.

Vision

- Healthy, Happy, Self sufficient and Self-Empowered Rural communities.

Mission

- Cater to the Health need of every individual in the society irrespective of caste, creed or economic status.
- Render special care to women and children of our society.
- Promote curative and preventive measures in order to improve the general well being of the society.
- Uplift social and economical status as well as rural development with scientific and rational approach.
- Create awareness for healthy qualitative life and development.

Editorial

Hello friends,

We are happy to present the 29th Annual report of our activities and achievements. As you all know Gram Seva is dedicated not only towards health but also the comprehensive development of villages of Navsari and Dang. It is heartening to present activity based and statistical information of different activities like hospital services, community health projects like mother and child health, adolescent health, non-communicable diseases project, mental health, AAA+ and rural development activities like skill development trainings viz financial literacy, sewing, handicrafts, livelihood projects like sangi sanitary napkins, green stove distribution and child development and education projects in this report. We have also started using telemedicine app facilities in interior areas of Dang for patients of Diabetes, Hypertension and Mental health to improve access to health services for tribal communities.

You all have been our pillars of support during the last 29 years in our efforts to reach the poor and marginal people in the community. We hope to see your continuous support and guidance in our future activities, where we are thinking of strengthening not only our health services but also our rural development and education activities.

We look forward to your suggestions and opinions to help improve and boost, our activities.

Dt. 24-10-2023

Place: Kharel

Thank you,

Dr. Ashwin Shah,

(Founder & Managing Trustee)

We request you all to visit our website

Hospital Services

Gram Seva tries to provide the community from around 300 surrounding villages, with essential medical services at low and affordable prices at our well-equipped 100 bed hospital at Kharel. It is very difficult for the poor to avail the expensive medical services in the private hospitals. Hence we aim to fulfil the medical needs of the rural and tribal community in the surrounding villages with services in medicine, surgery, obstetrics & gynaecology, paediatrics, ophthalmology, orthopaedics, ENT, plastic surgery, dentistry, dermatology, psychiatry, nephrology, physiotherapy etc. so that patient can avail them under one roof. Hence we have also developed well-equipped laboratory, operation theatres, NICU, ICU, Dialysis unit, x-ray, sonography, ambulance and food facilities for the patients. Thousands of poor patients from Gandevi, Chikhli, Vansda and Mahuwa blocks avail these services.

In Outpatient department 75% patients are from tribal community. About 42% (2852) of patients, who were hospitalized, availed the benefits of PMJAY (Ayushman Yojna- insurance scheme by government for the economically poor).

Antenatal Care

This year 3890 pregnant women were given free antenatal services out of which 1156 women were delivered.

Rural and tribal women should also get good quality obstetric services and hence we provide free

Patients treated in the hospital

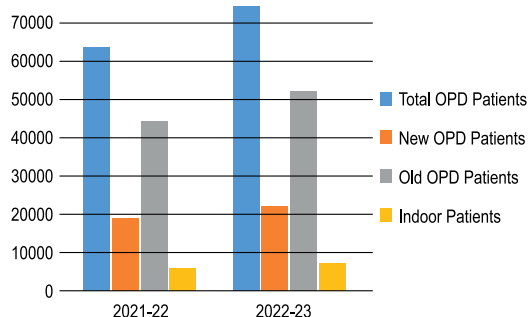

Table 1: Hospital Statistics

Department	2021-2022	2022-2023

Snake Bite Patients Treated	118	86
Free Food Dishes	56974	62551

antenatal services to pregnant women thrice a week and also run 24*7 safe delivery services including caesarean services. In last few years our hospital has become a referral centre for surrounding primary health care centres and private practitioners, for complicated obstetric deliveries. Out of the total women who delivered this year, 46% had some risks or complications like high blood pressure, severe anaemia, sickle cell disease, convulsions etc.

They need immediate and intensive care to prevent morbidities and mortality. This year 13 women were saved from near death complications.

Maternal and child complicated and mortality cases are discussed in monthly meetings of doctors and para medical staff. These cases studies help us in team work and better management of cases

Neonatal Intensive Care Unit (NICU) services

209 out of 224 new born babies (93%) were saved by the intensive care given in the NICU.

Many new born babies need medical care due to complications during pregnancy or delivery. Poor families from rural areas cannot afford these services, which are generally available in cities. To provide

NICU services to such families near their homes, our hospital has these services at very affordable rates. 197 NICU babies were followed regularly even after their discharge and given care and consultation.

The neonates and patients discharged from the hospital are followed regularly by our health workers in the villages and by telephonic contacts with them.

Dialysis Unit

289 patients received 2318 dialysis sessions this year.

Patients with chronic kidney diseases are increasing in rural areas due to increase in diseases like

hypertension. We provide affordable dialysis services near their homes thus saving their time and money. Patients having the government health insurance (Ayushman) cards are given free dialysis services and travel allowance.

Eye Department

1770 patients were checked in free eye camps out of which 339 elderly were operated for cataracts and 574 received free pair of spectacles.

Loss of vision, due to cataract, in the elderly is a major health problem in rural areas. Many avoid surgeries

due to fear and lack of money. Our Sukhabhai Govindji Eye Department provides services to these villagers at affordable rates. With the help of donors we also conduct free eye camps, every month, where eye check-up, spectacles for near vision and cataract

Table 2: Eye Department

Camp Details	Donors/ Support
Total camps:- 13	<ul style="list-style-type: none"> Well- wisher and Philanthropist Zoroastrian Lady In memory of Late Mr. Balubhai Premabhai Patel by Mrs. Ramilaben Balubhai Patel and family (Zervavra) Shri Samast Leuva Patidar Samaj Trust, Navsari Niko, Layla, Jay, Sumeru Naik and Family Devdha (U.S.A.)
Total Patients:- 1770	<ul style="list-style-type: none"> Manorama Trust, Gandhinagar
Total Surgeries:- 339	<ul style="list-style-type: none"> In memory of Late Mr. Pushkarrai Shah by Mrs. Surbhiben Shah (Gandhinagar)
Total Spectacles given:- 574	<ul style="list-style-type: none"> In memory of Late Mr. Dhirubhai Naik and Late Mrs. Kantaben Naik (Kaccholi) by Mr. Bharatkumar Naik. Drishti, District Blindness Control Program, Navsari Rotary Eye Institute, Navsari

Gift of sight.....

10 month old Neena (name changed) had poor vision. Our health workers advised her parents to come to Kharel hospital for eye check-up. On examination it was found that Neena had cataract in both her eyes since birth. She needed cataract surgery at the earliest to save her vision. But cataract surgery in a child was done in selected institutes and cost minimum 40000 rupees. Her parents couldn't afford the surgery and her grandparents were against it due to her young age. During that time we heard that cataract surgery was conducted in a child for the first time at Surat civil hospital and that too free of cost. After a lot of counselling and monetary support, Neena's parents took her to Surat civil hospital. In a span of 6 months, surgery was conducted in both her eyes and today Neena has good vision. The diligence, persistent counselling, follow up and support by our health workers and efforts by Neena's parents and Surat civil hospital paediatric eye department has been fruitful and given Neena her gift of sight and saved her from a dark future.

surgeries are done free of cost.

'Abhinav'District Early Intervention Centre (DEIC)

3641 children with development delays, defects, major diseases or deficiencies were managed by our Abhinav District Early Intervention centre.

This centre is supported by the National Health Mission and Rashtriya Bal Swasthya Karyakram (RBSK) for children who are aged less than 18 years. A team of doctors, therapists, paramedical workers and social workers together manage these children along with various consultants in paediatric endocrinology, nephrology, cardiology, neurology etc. who visit this centre. We also conduct 2 D Echo Camps to help diagnose and manage heart diseases

Table 3: Abhinav District Early Intervention Centre

Disorders	Total	
Year	2021-22	2022-23
Congenital Defects	835	1067
Nutritional Deficiencies	196	348
Developmental Disorder	578	1080
Diseases	728	1146
Total	2337	3641

in children in Navsari district. Thus this centre aims to help these children achieve their optimum health and development.

'Annapurna' Bhojnalay

62551 free meals were served by our Annapurna Bhojnalay.

Free, sumptuous meals are served to patients and their attendants as they come from distant villages.

This saves their time, money and energy. This service is supported by donations from our well-wishers for birthdays and anniversaries for this service thus enabling us to provide wholesome meals and milk, twice a day to the patients and their attendants.

Medical Relief

About 51.60% patients were given relief of ₹.4,63,10,940.00 and medicines worth ₹.14,45,860.00

Brightness beyond fear

62 year old Malatiben (name changed) had cataract in both eyes. But she was scared to undergo eye surgery. After a lot of counselling she came for an eye camp, but ran away due to her fear. So our field workers took the support of Malatiben's neighbours to motivate her. She was also introduced to people who had undergone cataract surgery, who informed her about their good experience and how they can see well now. Educational videos on cataract were shown. Her neighbours proposed to provide her tiffin for few days after surgery, if she agreed to go to the hospital. Thus after a lot of counselling and support from the villagers, Malatiben came for an eye camp and underwent surgery. She is very happy with the result and is ready to have her second cataract surgery soon. Thus Malatiben overcame fear and realised that there is brightness beyond it.....

were given free of cost in OPD. Economic constraints prevent many villagers from seeking medical services. It is our motto that no patient should be denied treatment for lack of money. So to help such people Gram Seva provides medical services at our hospital at Kharel at very affordable rates and give medical relief to very poor patients (OPD and Indoor) to help them complete their treatment. Since last 7 years,

with the help of our donors, we are also dispensing free medicines to all OPD patients. Medicines are sold in our medical store on 'no profit no loss' basis to lower their prices substantially from their maximum retail prices. Only 40% of the total hospital expense is received from patients, rest of the expense is covered by donations, grants and funds.

Cervical Cancer Clinic in Suitcase

To provide early cancer detection services to the rural women in Navsari and Dang district, we have started the clinic in suitcase services with the support of Mr. Rameshbhai Shah (U.S.A.) and his trust Mangala Prem Trust and Rotary Club of Gandevi. Cervical cancer screening tools (VIA method) and cryo-therapy equipment, for early diagnosis and management of cervical lesions help in painless detection and

management of precancerous conditions thus preventing spread of cancer. We conduct weekly free Cervical Cancer Clinic at Kharel hospital and at our satellite centres in Dang. We also conduct camps in surrounding primary health centres. This year 324 women were screened by gynaecologist out of which 286 VIA were done and 26 needed cryotherapy.

Ups and Downs in Pregnancy

We feel that pregnancy is a natural process and hence nothing to worry about, but 30 years old Nishaben (name changed) had a very turbulent pregnancy. She came to our hospital for routine checkup. Initially all her parameters were normal except for positive test for Hepatitis B. As her pregnancy progressed she was doing well. But in her 7 month of pregnancy she suffered from covid infection and had to be admitted for medical care. In her 9th month of pregnancy she had high blood pressure, so our gynaecologist, decided to admit her to control her blood pressure. Her passage of delivery was narrow so it was decided to conduct her delivery by caesarean section. She gave birth to a healthy baby boy. After her delivery, Nishaben's blood pressure was under control. On the 4th of her delivery, her family noticed change in her behaviour. She stopped talking with everybody. She would just sit and not do anything, even her daily routine. She would not even hold her baby or feed her baby. Seeing Nishaben's condition, the gynaecologist consulted a psychiatrist and she was started on anti-depression medicines. Slowly Nishaben's condition improved. She comes to the hospital for regular follow up and is active and takes good care of herself and her baby. Thus women need care and support during and after pregnancy.....

Timely health services help save a young man

Dinesh, a 22 year old young man from Gunasvel village felt that something had bit him in his sleep. He woke up and tried to search around but found nothing. Hence he went to sleep again. The next morning he woke up ill with vomiting and nausea, dizziness and weakness. He was taken to a private clinic near his village, where he was given primary treatment and referred to Kharel hospital. On the way to Kharel hospital his condition worsened and he was taken to a nearby government health centre. After preliminary treatment he was sent to Kharel hospital in 108 emergency ambulance. When Dinesh reached Kharel, his condition was serious with breathlessness, uneasiness, difficulty in opening his eyes, frothy discharge from his mouth. His tests showed that a neurotoxic snake like Krait must have bit him. He was immediately given intensive care and started on Anti Snake Venom injections. Snakes like krait are very poisonous and affect the nervous system, which can cause breathing difficulties, muscle weakness etc. Even after 10 ASV injections Dinesh's breathing suddenly deteriorated, his oxygen levels, heart rate and blood pressure dropped down. Hence he was put on ventilator and given 12 more ASV injections and other treatment to improve his heart rate and blood pressure. Slowly his condition improved and finally he was weaned off from the ventilator. Thus timely medical services helped save the life of this young man.

Services in Interior Areas

Satellite Centres

7291 tribal patients benefitted from services at the satellite centres and 209 were brought to Kharel for further management.

Patients from interior forest areas, in need of medical services, travel more than 100 kms. Our team of doctors and paramedical staff conducts weekly dispensaries in our satellite centres in Dang, thus saving patient's travel time and money.

Patients with major health problems are brought to our hospital at Kharel for further management. Not only patients of hilly forest areas of Dang district but also from border villages of neighbouring Maharashtra avail these services. This year our team visited these centres for 119 visits.

Table 4: Satellite Centers

Mega General Medical and Surgical Camps

4373 patients were given free medical and surgical treatment in our mega camps conducted in interior areas. The camps are conducted so that poor

patients get access to medical services. Table.No 5 gives details of the camps conducted this year.

Happy patient has become our ambassador

Ramiben (name changed) resident of Narakchond, an interior village in Dang, had a large painful lump in her breast. She was advised surgery by a doctor in Nasik. The surgery would cost Rs17000/- Ramiben was poor so she came back without treatment. Then she consulted our community health worker, who told her to come in our mobile clinic on Mondays. Ramiben was examined in the clinic and advised to come to Kharel for further management. Since she had her Ayushman card (social health insurance card) she was assured that the surgery will be done free of cost. Ramiben came to Kharel and underwent surgery. Her tumour was benign (not cancerous) hence she did not require any further management. She did not have to pay any money. But was given Rs300/- to travel back home. Ramiben is very happy with her treatment and now advises everybody who is not well to go to Kharel hospital for further management.

Rash decisions can be hazardous

Manabhai (name changed) resident of Supdahad village in Dang suffered from seizures since last 10 to 12 years. During routine home visits our health worker was informed by Manabhai about his ailment. She advised him to visit our clinic at Shivarimal on Thursday. Our senior physician who was visiting Shivarimal that day started Manabhai on anti convulsants and advised him to not to drive and avoid alcohol. After taking regular treatment there was significant improvement in his condition. He no longer suffered from seizures. And was doing his work well. Few months later Manabhai felt that he was completely well and hence stopped his medicines without the advice of doctors and started taking alcohol. The result being his seizures recurred. He immediately contacted our health and visited the clinic at Shivarimal. He was advised not to consume alcohol and never to stop his medicines. Today Manabhai is doing well. He has learnt his lesson and says will never stop medicines without consulting the doctor.

Alone we can do so little, together we can do so much – Hellen Keller

Community Health Projects

Child health and Nutrition Project

1525 children treated for malnutrition.

Malnutrition in children is rampant in rural areas and increased during the covid pandemic, leading to stunting, undernutrition and poor growth and development of children. Major cause of malnutrition

is lack of awareness and poverty. Hence our health workers in villages educate the families regarding child health and nutrition and free medical services are provided to the children in 100 anganwadis of Chikhli and Gandevi blocks of Navsari district.

Table 6 : Nutritional status of children

Age in years	Total number of children	Normal Nutrition	Percent	Mild to Moderate Malnutrition	Percent	Severe Malnutrition	Percent
21-22	1587	917	57.78	508	32.01	162	10.21
22-23	1525	939	61.57	411	26.95	175	11.47

Antenatal Care Project

908 pregnant women in 22 villages were followed for safe delivery.

Pregnancy and delivery are important phases in a women's life where she needs medical care and

support. Women in rural areas face problems like lack of money, lack of awareness, lack of services. Hence we not only provide free antenatal clinics but also follow the women and counsel their families for safe delivery and motherhood.

Adolescent Health Education project

Around 3000 adolescent girls educated every year regarding general health, reproductive health, menstrual hygiene management, nutrition, addictions and safety.

Adolescence is a turmoil and adaption to physical and mental changes. Young people need scientific advice, guidance and support during this period. Our workers conduct monthly meetings with adolescent girls in villages and schools to screen them for

malnutrition and give them health education.

Geriatric Project for Non Communicable Diseases.

3510 elderly people suffering from Hypertension, Diabetes, Asthma, Heart disease and other health problems were followed for compliance in medicines and regular health care to decrease complications.

Old age brings with it chronic health problems. People get tired of life-long medicines and stop them. Our health workers in villages follow such patients, motivate and support their families and educate them regarding lifestyle changes. Due to their constant visits and motivation about 90 percent of the patients are compliant.

Mental Health Project

85 mental health patients were started on treatment and 11 of them are now engaged in occupations which they were doing prior their illness.

Mental Health has always been a neglected health problem due to social stigma. Our health workers generate awareness in villages and do house to house screening for mental health patients, counsel them and their families for psychiatric consultation and management. They are followed regularly to motivate

Table 7: Geriatric Project

and support them for compliance in medicines and social rehabilitation.

AAA+ project (Adivasi Aarogya Sambhal and Aarthik Vikas Project)

5475 patients in interior villages of Dang treated in our weekly mobile clinics.

The Dangs are difficult hilly areas with poor health and communication facilities. Hence we adopted 25

Community health awareness session motivates in seeking timely help

Niruben (name changed) was a 62 year old woman from Narakhond village in Dang. She was often ill. Her family believed in traditional healers and hence she always went to him for treatment. But there was no improvement. One day our community health worker was educating the local women about Hypertension. Niruben did not join this group, but she sat a far way and was listening. Few days later she felt giddy and fell down. She was immediately taken to Shamgahan government health centre in 108 emergency ambulance. After a day she was discharged. But her condition had not improved. She still suffered from headaches. Then she remembered the signs and symptoms of Hypertension that she had heard from our community health worker. Niruben immediately contacted our health worker and asked her to check her blood pressure. Her blood pressure reading was very high. When she was informed that she had high blood pressure, Niruben was afraid that now she will die. Our community health worker assured her and asked her to come for the mobile clinic for further check-up. She attended the clinic and was started on anti-hypertensive medicines. Our worker followed her continuously by doing frequent home visits. Today Niruben is compliant in her medicines and check up and has less symptoms and normal blood pressure.

villages in Dang where we conduct health programs and economic activities, through our village level workers. At present our health workers are creating awareness, screening and managing patients for malnutrition, anaemia, hypertension and diabetes.

Since Dang is remote, interior area, it is difficult for patients to travel and for doctors to reach the villages frequently. Hence we are also trying to use, wherever

Table 10: AAA Project

possible, 'Telemedicine' applications for medical help as medicines are not available in time and follow up of patients as chronic disease needs long time follow up to prevent complications. Our health workers are trained to use this application and send regular follow up reports and communicate with doctors in emergencies.

Health awareness activities

More than 600 health awareness sessions conducted in hospital and villages.

As we know 80 percent of the health problems are due to lack of awareness. Hence health awareness

activities in communities is the back bone of all our health projects. We conduct health education sessions in hospital, wards, before clinics, during camps and in villages.

The work culture of the organization is accredited by Great place to work.

Rural Development Projects

Women Empowerment

Skill Development Activities

Gram Seva aims towards rural development through individual development and the development of their families. We feel that economic development of women also leads to development in other sectors like health. Hence we conduct different skill development programs for rural women.

Sangi Sewing Classes

11 sewing classes in villages helped train 262 young women.

We conduct 3 months sewing courses in villages, which save the travelling costs and time of young women, who learn these skills without disrupting their housework. These mobile sewing classes saved

Rs.5,60,000/-, that the women would have spent in travelling. Some women bought sewing machines without any financial support and 18 women were given machines with 50% discount. Thus they have started earning their livelihood with the use of this skill. This project is supported by Manav kalyan Trust and Desai foundation U.S.A. Gathani family from Mumbai supported with sewing machines for women.

Financial Literacy Training

406 village women were given training in financial matters like income, expense, savings, banking, social benefit schemes etc.

In our day to day activities we always have to take decisions regarding financial matters. Knowledge

Primary treatment and advice brings long awaited happiness in the family

When our community health workers were visiting village for awareness activities, they were informing the village women to attend the Shivarimal clinic, if they have any gynaecological problems, as a gynaecologist would be visiting every Thursday. Shantaben (name changed) 37 year old resident of Shivarimal village, had no children. Both Shantaben and her husband were tired of visiting traditional healers and hence ignored our health workers. But our health workers persisted and visited them and spoke with them and advised them to come to the clinic on Thursday. Shantaben did not heed their advice and did not visit the clinic. After few months she heard from others that another woman who did not have any child was pregnant after treatment in the clinic. This raised her hopes and she came to the next clinic. She was advised to come to Kharel, with her husband for further investigations. Both Shantaben and her husband visited Kharel for further management. Shantaben was diagnosed with hypothyroidism and her husband was diabetic. Rest of their investigations were normal. Hence they were started on medicines for their respective ailments. Shantaben's menstrual cycle was followed and they were advised to have sexual relations on specific days. Today Shantaben is 8 months pregnant and eagerly looking forward to her delivery.

and information regarding finance management help us take these decisions. Hence rural women are also given training in financial matters to empower them to be independent and take decisions regarding financial management for their families. These trainings are conducted with the help of audio visual aids and games to make them interesting.

Jewellery making workshops

77 women were trained in jewellery making and the ornaments made by them in training were sold earning them Rs. 25131/-

Such trainings help develop the skills of rural women and motivate them to supplement their family income through such activities. Hence we conduct different trainings according to the festive seasons like raakhi making, diya painting etc. so that women are trained in new market trends to improve their skills. These trainings are supported financially by Desai Foundation, U.S.A.

Livelihood Activities

It has been our experience that only giving trainings to women is not enough to empower them economically. They need support and guidance in their income generation activities.

Sangi Sanitary Napkins

Women manufactured and sold Rs.15,10,354/- worth of sanitary napkins (56144 packets) and earned Rs.4,41,869/- as their income.

Child Development Activities

The organization is committed to child health and development and hence we conduct different activities for the education and development of tribal children.

Parodh Balawas (Child Education and Development Centre)

5 students from tribal migrant worker families passed their 10th std board exams and 52 students won prizes in different competitions at cluster level, taluka level and district level competitions.

These students from migrant families were deprived of education in their earlier years due to migration with their families to brick factories, salt pans and construction of roadways. Parodh Balawas, provides free hostel and education facilities to such

Thus rural women are earning some income and at the same time local women have access to low cost, environment friendly sanitary napkins in their village itself. This project is being expanded further in interior areas and new women are joining this activity.

Sangi Green Stove

5497 families of about 27485 members were saved from the pollution caused by the smoke of traditional cooking stoves using wood as fuel.

These green stoves prevent about 70% smoke and 60% lower usage of wood thus improving the health of family members especially the women, children and elders in the family and conserving our trees. These stoves are distributed with the support of Gram Sangi Workers thus helping them earn Rs.6,13,545/- this year.

Gram Sangi Workers not only market sangi napkins or green stove, but also sell different handicrafts and household products made by women or local small scale industries thus supplementing their income and supporting their families.

Roshni-Sangee centre for Handicrafts and household products

Handicrafts and household products, made by women are marketed through retail shop in the campus, stalls in fairs, annual exhibition etc. This year women sold products worth Rs.6,07,413/-

children. 78 students from std. 1 to 12 are enrolled in Parodh Balawas. Efforts are put in to make the environment conducive for their education and holistic development through various activities arranged throughout the year. Parodh Balawas hostel is a green building, developed to conserve our natural resources and help the children learn the concept of preservation of nature and sustainable development.

Shiksha Parab (Tutorial classes for children)

261 tribal children studying from std 1 to 4 benefit from the tutorials in surrounding villages.

These tutorials are aimed to strengthen their primary education and decrease school dropout rates. The three R's viz reading, writing and arithmetic are taught

through various activities like songs, games, role plays, crafts etc.

Childline Services

154 children in difficulties were helped through the 1098 childline services.

The organization had accepted the responsibility of this helpline services for children in Navsari district. Our childline team was available 24*7 with the support of police, social security and health departments, to help children in difficulties for the last 3 years.

Other activities of the organization

2 D Echo Camps

255 children with heart disease were examined and followed for further management this year.

Dr. Ritesh Sukharamvala and Dr. Snehal Kulkarni give their honorary services for these children.

Total 4 diagnostic and follow up camps were organized this year.

Student Internship Program

Students from various institutes and universities completed their internship with the organization in different departments like laboratory, nursing, physiotherapy, rural development etc.

Table 6: Internship Program

Sr.	Departments	Interns
1.	Laboratory	5
2.	Physiotherapy	2
3.	Nursing	66
4.	Rural Development	1

Great Place to Work

Gram Seva has been certified by Great Place to Work, Institute, India for consecutive 3 years for its working culture and environment.

Felicitatation

Gram Seva has been felicitated by the District Magistrate, Navsari as Best Hospital for services under the Ayushyaman Bharat Yojana (PMJAY) on occasion of 26th January Republic Day Celebrations at Chikhli.

Fire Safety training

Our staff were given training in causes of fire and use of fire safety measures in different types of fire on 19/05/2022.

Elevator facility

Our new elevator installed this year, has been a great help in transferring patients to wards on top floors and also serving food in those wards.

New Services and Facilities-

Seeing the prevalent conditions in community and understanding their needs we have started two weekly clinic facilities for patients in surrounding areas.

- Weekly Sickel Cell Disease Clinic
- Weekly Infertility Clinic

Patients are not only checked and treated in these clinics but also counselled by our social workers regarding the disease, care, medicines, vaccines, regular follow up and emergency services if needed

New Team Members

We welcome our new team members, Dr. Hiren Kathiriya as full time gynaecologist, Dr. Nitiksha Mehta and Dr. Urvashi Patel as medical officers, Dr. Himanshu Pansuriya (Paediatric Neurologist), Dr. Pratik Mishra (Audiologist and Speech Therapist), Dr. Divya Patel (Sonologist). We also have Dr. Bharat Kheraliya, Dr. Maitri Patel, Dr. Renuka Sangani and Dr. Om Jaiswal as DGO (CPS) students.

Congratulations

We heartily congratulate our students, Dr. Dinesh Baldania, Dr. Jaydeep Nakum, Dr. Dipti Gamit and Dr. Rupal Bambhania for having successfully completed their Diploma in Gynaecology and Obstetrics (DGO) recognised by the College of Physicians and Surgeons (CPS), Mumbai.

Condolences

Our deepest condolences to families of our friends and well-wishers, who passed away this year. We are grateful for their support to our activities. They will always remain in our prayers.

Acknowledgement

We heartily acknowledge and thank all for their help and support and we take this opportunity to express our heartfelt gratitude.

AUDITORS' REPORT

(Under sub section (2) of section 33 and 34 and Rule 19 of the Bombay Public Trust Act 1950)

Registration No. : E/896/Navsari
 Name of the Trust : GRAM SEVA TRUST
 For the year ended : 31st March 2023

We have audited the annexed Balance sheet of GRAM SEVA TRUST [(Reg.No E/896/ Navsari) situated at : N. H. No. 48, At & Post: Kharel, Dist: Navsari 396430] as on 31st March 2023 as well as Income and Expenditure Account for the year ended on 31st March 2023.

We have conducted our audit in accordance with auditing standards generally accepted in India. These standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

1. The accounts are maintained regularly and in accordance with the provisions of the Act and Rules
2. The receipts and disbursements are properly and correctly shown in the accounts
3. The cash balance and vouchers in the custody of the treasurer or trustee on the date of the audit were in agreement with the books of account
4. All books, deeds, accounts, vouchers or other documents & records required by us were produced before us.
5. A Register of movable and immovable properties has been maintained and the changes therein have been furnished to us.
6. All the necessary information required by us has been furnished to us by the Trustees personally whenever called upon
7. No property or funds of the Trust were applied for any object or purpose other than for the object or purpose of the Trust
8. There are no amounts which are outstanding for more than one year and written off
9. For repairs, tenders are not invited but for construction involving expenditure exceeding ₹ 5000/-, tenders are invited
10. The money of the trust have not been invested contrary to the provisions of section 35 of the Act.
11. There is no alienation of the immovable property contrary to provisions of Section 36
12. There are no cases of irregular, illegal or improper expenditure or failure or omission to recover money or other property belonging to the public trust or of loss or waste of money or other property thereof.
13. The provision of Budget to be filed under Rule in the form under Rule 16A is not applicable to the trust. However, the Trust has policy to prepare the Annual Budget.
14. The maximum and minimum number of trustees is maintained during the year.
15. The meetings are held as provided by such instrument.
16. The Minutes Books of proceedings of the meetings are maintained.
17. None of the Trustees has any interest in the investment of the trust.
18. None of the trustees is any debtor or creditor of the trust.
19. The irregularities pointed out by the Auditors in the accounts for the year under audit are have been duly complied with by the trustees.
20. There is no special matter, which we think fit or necessary to bring to the notice of the Deputy or Assistant Charity Commissioner

You can help us...

Gram Seva Trust strives for Health and Development of Rural Communities, especially, its weaker sections like women, children and the elderly.

The activities of the organization depend on donations and hence there is a perennial need of donations and help. We sincerely request you to join us in these activities through your voluntary donations in cash or kind for the following:

Permanent Donations Scheme

1. Poor Patients Relief Fund.
 2. Eye Care Fund.
 3. Bhojnalay(Kitchen) Fund.
 4. Women Empowerment Fund.
 5. Children's Welfare Fund
 6. "Parodh Balawas" Funds
- } Interest shall be utilized from Corpus fund.
7. Anniversary Donations: these are donations on birth, death or any other anniversaries for treatment or food for the patients. The interest on the amount shall be utilised on the same day every year for the same purpose. ₹. 21000/- for this fund is accepted. The Donors name shall be displayed on a board that day.
 8. ₹. 2100/- (10 U.S.\$) for One Meal for Hospital Patients & - ₹. 3500/- (20 U.S.\$) for Two Meals
 9. ₹. 2100/- (10 U.S.\$) One Meal for "Parodh" Balawas children- ₹. 3500/- (30 U.S.\$) for Two Meals
 10. ₹. 500/- (5 U.S.\$) for Milk for one time for "Parodh" Balawas Children or Hospital Patients & ₹.1000 (10 U.S.\$) for Two time.
 11. Eye Camp- An eye camp and free cataract operations of all those coming in the camp are organised on donation of ₹. 40000/- (800 U.S.\$) and ₹. 1500/- (25 U.S.\$) for one cataract operation.
 12. Support Education Expense of One Parodh Balawas Child: ₹.36000/year (600 U.S.\$/year)
 13. General Donation

We also need donations for hospital and Balawas equipment. Kindly contact our office for more information.

We shall be happy to receive voluntary services in any of our activities like child education, skill development of youth and women, development of database, IEC materials, library, documentation etc.

Donations can be sent through cheques, demand drafts or direct transfer, in the name of Gram Seva Trust.

All donations are tax exempted under 80G in India.

Donations in U.S.A, can avail tax exemption if donated to Gram Seva Foundation a 501(c)(3) tax exempt charitable non profit.
