# **GRAM SEVA TRUST**

Dedicated to Health Care and Rural Development

**25<sup>th</sup>**  
**ANNUAL REPORT**  
**2018-19**

## About the organization

### This logo symbolizes the objectives of the organization.

- The words in the outer circle are from the great Indian epic "Mahabharat", saying that "nothing is above a Human". This is also the motto of the organization.
- The triangle in the inner circle symbolizes the hands of three people and stands for community development through participation.
- The light from the lamp in the small but in the centre symbolizes the development of the weakest and poorest person of the community.

Founder trustees of the organization were inspired by Gandhian thinking and work of great men like Albert Schweitzer. They felt deeply the agony and hopelessness of poor villagers. They saw the plight of villagers and felt a need of medical services in these villages. Hence they brought like minded friends together and founded Gram Seva Trust, an organization dedicated to rural health and development.

In 1994 the trust started a 30 bedded hospital with 5 staff members in an old dilapidated building, given by another trust. As the need arose the hospital was expanded to accommodate more patients and better services. Today the hospital can accommodate 80 patients and has all basic facilities required in a rural hospital providing health services at affordable rates and sometimes free of charge to the needy from nearly 300 surrounding villages of Naysari and Dang districts.

The organization also wanted to improve health of the surrounding villages hence as and when need was identified different community projects were started in the surrounding villages with main focus on health and development of women and children. Immense efforts are put in to decrease malnutrition. Gram Seva Trust also reaches out to the tribals in deep interior villages of Vandsa and Dang through satellite centers and general medical mega camps arranged every year.

The organization has also started different projects for development of villages like Self Help Group project (a micro saving and micro lending project for women), trainings for income generation activities, adolescent girl project, tutorial classes to strengthen primary education and a Child Education and Development Centre to improve standard of education in children of landless labourers.

## Vision

- Healthy, Happy, Self sufficient and Self-Empowered Rural communities.

## Mission

- Cater to the Health need of every individual in the society irrespective of caste, creed or economic status.
- Render special care to women and children of our society.
- Promote curative and preventive measures in order to improve the general well being of the society.
- Uplift social and economical status as well as rural development with scientific and rational approach.
- Create awareness for healthy qualitative life and development.

## Tribute

**Dr. Anilbhai Naik**

Death: 16-04-2019

The sad demise of Dr. Anilbhai Desai, Founder of Sewa Rural Jhagadia, our Advisor, Guide and strong support is a great loss to the organization. Anilbhai followed the principles of Ramkrishna Paramhansa, Swami Vivekanand and Mahatma Gandhi throughout his life by working to provide medical services and bring health awareness in rural, tribal interior areas of Gujarat. He left U.S.A. and returned to India in 1980 to start Sewa Rural in interior, forest and tribal area of Jhagadia. His work has been a major contribution towards the health and development of tribal people in that region. He was compassionate towards the poor and empathized with their situation and always worked towards their development. Anilbhai has been the Founder Trustee of Gram Seva and has been our support and guide throughout these years. Gram Seva family pays homage to Dr. Anilbhai Desai, whose knowledge, wisdom, experience and self-confidence has been an inspiration to many like us.

Dear Friends,

We are very happy to inform you that Gram Seva has completed 25 years towards health and rural development with your support and well wishes. Though our newsletter 'Samvedan' brings to you information of ongoing activities of the organization, with this report we present the Annual activities and accounts of the year 2018-19.

The year had started very enthusiastically with input of new machines and instruments for the hospital. This was followed by Women's health project in Navsari District to screen more than 2000 rural women for diseases like cancer, hypertension and diabetes. With the help of donors and well wishers like you and Rotary club, we conducted general medical and surgical mega camps in Vansda and Dang to provide free medical services to the poor tribal villagers.

Gram Seva has been selected as 'District Early Intervention Centre' to screen and manage children from birth to 18 years for deficiencies, defects, disabilities and diseases. Facilities for these services will be made available soon. Low cost infertility clinics are also in the pipeline. Women's health Project shall be expanded to Dang district in the coming year. At the same time efforts are being made to upscale the women's income generation projects.

Over the years the need and demand for health and rural development has been changing. We have been trying to meet these changes and do our best with your wholehearted support for the last 25 years. We look forward to share with you our bittersweet experiences, our joys, our failures and our gratitude, through the 25 years report publication and Celebration Meet at Kharel in December 2019. We look forward to your ideas and suggestions for new directions for Gram Seva for future.

Gandhi Jayanti  
2nd October, 2019  
Kharel

Dr. Ashwin Shah,  
(Managing Trustee)  
Gram Seva Family

## New Projects

### Women's Health Project

Breast cancer and Cervical cancer are respectively the number one and number two causes of cancer in women. They can be diagnosed early and treated but many women neglect the symptoms of initial stages and come to the hospital at a late stage when management is difficult. To help increase awareness in women regarding these diseases and to screen them for early diagnosis we decided to conduct a free screening project for Women's Health. This year we conducted the Women's Health Project in 28 villages of Gandevi and Chikhli blocks of Navsari District. About 2352 women were screened for Cervical cancer, Breast cancer, Hypertension, Diabetes and other Gynaecological problems. Four women suffered from cervical cancer and two women out 104 who had mammography done were diagnosed with breast cancer.

A significant number of women screened also suffered from hypertension, diabetes, other breast diseases and reproductive tract infections. The project helped create awareness amongst the women regarding these diseases and more and more women are coming to the hospital for early diagnosis and management of their illness. This year we plan to extend the project to the villages in Dang District. Desai Foundation (U.S.A.) and Unified Healthcare for Rural Underserved (UHRU) (U.S.A.) have supported us in this project and are continuing their support for screening in Dang district.

## Hospital Services

Modern medical services in cities are expensive and unaffordable for the poor villagers. There was need for affordable medical services in the vicinity of the villages and our hospital at Kharel tries to satisfy this need of the villagers. The hospital comprises of 100

bed indoor facility and outside patient department in medicine, surgery, obstetrics and gynaecology, paediatrics, orthopedics, dentistry, ophthalmology, skin, ENT, plastic surgery etc. The hospital services have been updated regularly with advancement in technology thus providing quality, rational and affordable treatment to patients. More than 300 villages of Navsari, Dang and Surat Districts avail the hospital services. With the help of philanthropic donors we have been able to give free medicines to all OPD patients for the last two years.

**Table-1: Hospital Statistics**

S.N.	Department	2017-2018	2018-19
1.	OPD Patients (New)	22726	23234
	(Old)	47220	50926

12.	Snake Bite Patients Treated	140	100
13.	Free Food Dishes	70620	74085

### Antenatal Care

Medical experience says that any obstetric delivery can become complicated and hence last two hours of delivery are very important. At Gram Seva our objective is to give modern, quality obstetric services to women of all strata. Even a poor, tribal woman should receive best services that are available. Our obstetrics services are available 24 x 7. We also give free antenatal services thrice a week. Checkup by obstetrician, laboratory investigations and medicines are given free of cost during nine months of a women's pregnancy. This year 1408 pregnant

Mangiben was a resident of Gandeva village and suffering from abnormal loss of blood during menstruation. On examination by our gynaecologist she had bulky uterus and was advised ultra sound test for further diagnosis. But Mangiben was scared to do any further tests or treatment. She refused to go for an ultra sound. Frequent visits and counseling by our field workers could not persuade her. In the end they asked a woman in the same village who had suffered from the same problem and had successfully got treated to help them. They called all women from the village including Mangiben and the other woman for a meeting. Where the woman explained how she had suffered, how she had undergone various tests and how she was now well after her treatment. Mangiben was now ready to do further tests when she realized that a woman like her from her village had also done these tests and completed her treatment. But when the workers visited her home after few days they found that she had not gone for her tests. They then immediately counseled her family that she was now ready for her tests and they should do them immediately. Mangiben's son took her to Navsari and got the ultrasound test done on the same day. Mangiben needed surgery of the uterus which she underwent willingly and now she has no problems. Thus frequent counseling, follow-up and support by our field workers and their efforts to counsel Mangiben through a local woman with similar problems had its effect and she was healthy once again.

women were delivered out of which 1127 (80%) were not charged for their delivery.

High risk pregnant women and those from interior villages can receive good obstetric and paediatric services at our Mamtaghar facility (which is financially supported by state government), where they can come and stay 8 to 10 days prior to their delivery. Thus they reach in time for safe delivery. 419 such women stayed in Mamtaghar this year.

### Neonatal Intensive Care Unit (NICU)

Sick, Premature or Newborns with low birth weight require intensive medical care. This is generally available in cities and private hospitals. In order to provide such services in the vicinity we started the NICU in our hospital. Medical care in NICU is given at very low cost or mostly free of charge. This year out of 242 high risk babies kept in NICU 221 were saved (Survival rate of 91%). Out of these 221 babies 205

(88%) have come regularly for follow up at the hospital after their discharge.

### Dialysis Unit

This year 1113 dialysis sessions were conducted in the hospital's unit, out of which 943 were free of charge. Shri Samast Leuva Patidar Samaaj, Navsari financially supported for 100 dialysis sessions. Patients with chronic kidney diseases get low cost or free dialysis sessions, which may be twice or thrice a week, near their villages. The hospital tries to give free dialysis to poor patients through voluntary donations or government MA scheme (Social security scheme). The social security scheme also provides monetary support for transport of patients, thus decreasing the monetary burden on such chronically ill patients.

**Table-2: Eye Department**

Camp Details	Donors
Total Camps: 15	<ul style="list-style-type: none"> <li>• Trupti Parag Charitable Trust, Mumbai</li> </ul>
Total Patients : 1980	<ul style="list-style-type: none"> <li>• Philanthropic Zorastrian Well Wisher</li> </ul>
Total Surgeries: 252	<ul style="list-style-type: none"> <li>• Mr. C.N.Vashi family (Damdachha)</li> </ul>
Total Spectacles: 1059	<ul style="list-style-type: none"> <li>• Sumeru, Jay and Laila Naik , Devdha (at present U.S.A)</li> <li>• Shri Bhulabhai Hirabhai Patel (Sisodra), Shri Pravinbhai Ishwarbhai Patel (Goji) and Shri Santoshkumar Kishorbhai Patel ( Ghadoi)</li> <li>• In memory of Late Shri Ambelal Gopalji Naik (Kotha) by Mrs. Sudha Jayesh Naik, Surat</li> <li>• District Blindness Control Society- Navsari</li> </ul>

## Sukhabhai Govindji Eye Department

Cataract is major health problem in the elderly which leads to blindness. Especially, the poor and elderly in rural areas, who cannot afford the surgery and are dependent on others. Our eye department conducts free eye camps every month with the help of donations. Patients are provided with free spectacles and cataract surgeries are also done free of charge. This year 1980 patients were checked in camps out of which 252 free cataract surgeries were done and 1059 were given spectacles.

## Satellite Centres

Dang is an interior, hilly and forest area. The residents of this district have to travel more than 100km to receive medical services. They incur not only medical and travel expense but also lose daily wages. With the objective of giving rational, primary medical services to the people of Dang in their vicinity the organization runs two satellite centres at Kudkas and Shivarimal villages. Our team of Doctors and paramedical staff conduct medical dispensaries at these centres. Every week patients from Dang and bordering villages of Tapi District and Maharashtra are treated at these centres. This year

our team treated 6046 patients out of which 150 were brought to Kharel for further management.

## General Medical and Surgical Camps

The border villages of Gujarat and Maharashtra receive limited health, communication and transport facilities due to hilly, forest terrain. The private hospitals in nearby small towns are too expensive for the tribal people in these villages. Being unable to afford such expensive treatments they procrastinate and wait anxiously for the camps organized by Gram Seva for management of major illness and surgeries. Gram Seva organizes two to three general medical and surgical camps in such interior areas every year. The camp not only consists of free diagnosis but also management of their illness free of cost. Many donors are coming forward to help us organize such camps and thus reach to the poor and needy tribal people.

Gram Seva also joined AIPNO (Association of Indian Physician of Northern Ohio), U.S.A. and Rotary Club of Gandevi in Medical Yatra in Gandevi and Dang District. About 105 patients from Medical Yatra camps were treated at Kharel Hospital.

**Table-3: Satellite Centres**

Particulars	2017-18		2018-19	
	Kudkas	Shivarimal (Aug'17 to Mar'18)	Kudkas	Shivarimal
Total visits	49	33	49	49
General Medicine	4873	2227	3869	1862
Gynaecology	203	81	219	96
Total Patients	5076	2308	4088	1958

## New Instruments in Hospital

Biochemistry analyzer in the Laboratory, Anaesthesia Workstation, Laparoscope and Hysteroscope in operation theatre, Bilirubinometer and Vein Detector in Paediatrics department and Oxygen Making Machine were bought this year to improve the services.

**Table-4: Medical Camps**

Sr.	Date	Venue	Donors	Total patients
1	22/04/2018	Anaval	Shukleshwar Mahadev Trust	152
2	25/11/2018	Dolvan	Mrs.Nayna and Mr. Dinesh Shah & family ( U.S.A.)	772
3	06/01/2019	Vangan	Mrs. Saroj Mahendra Shah( Vadodara) and Mrs. Meena Bipin Shah (Bilimora)	1230
4	17/01/2019	Shivarimal	Mrs. Urmilaben and Mr. Sumanbhai Shah, Mrs. Kashmiraben and Mr.Bharatbhai Shah, Mrs. Jayashreeben and Mr. Paragbhai Shah, Rotary club of Gandevi and Association of Indian Physician of Northern Ohio (AIPNO), U.S.A.	1900

## Annapurna Bhojnalay (Kitchen Services)

Our Annapurna Bhojnalay was started to provide clean and wholesome food to patients and their relatives who come from distant villages. Free food and milk is provided to all general ward patients and their attendant, twice a day. Visitors and patients in private rooms are also served food at low rates. This year 78381 dishes were served out of which 74085 dishes were given free.

## Medical Relief

Gram Seva tries to provide medical services to poor patients through a relief fund supported by donations. The hospital charges are kept low, yet many patients are unable to afford the medical services and hence such patients are given partial or total relief in their bills. This year 63% of the total patients were given a relief of ₹ 24833050/-. With the support of generous donations we are also able to give free medicines to all OPD patients for the last two years.

## Community Health Projects

### Child Health and Nutrition Project

Childhood nutrition and care play a big role in development of healthy children. The negative effects of malnutrition are seen not only in childhood but also in later life of an individual. Poor economic, educational and social structure has led to higher incidence of malnutrition in children in surrounding villages. To combat malnutrition in children Gram Seva has adopted 102 anganwadis of Gandevi and Chikhli blocks. Our team of Medical officer and Community Workers is diligently trying to decrease malnutrition by conducting regular checkups,

home visits, follow ups and health education including nutritional demonstrations. About 1434 children aged 0-2 years are followed intensively for malnutrition and another 1200 children aged 2 to 5 years are given medical and referral services.

**Table-6: Adolescent Health Education**

Adolescent Project in villages	Girls	Boys	Total
Total Health Education Meetings	523	174	697
Average Monthly Meetings	44	15	59
Average attendance in monthly meetings	614	198	812

**Table-5: Child Health & Nutrition Project**

Year	0-2 year children registered	Normal	Mild Malnutrition	Severe Malnutrition
2018-19	1434	914(63.7%)	415(28.9%)	105(7.3%)

Manju, a 11th grade student from Matwad, was good in her studies and had high aspirations. But she was attracted to a youth in her village and sometimes bunked school to meet him. When Manju's parents realized this they tried to counsel her, but she still continued to meet him. This angered her parents who now kept her at home and did not allow her to go anywhere. Even her schooling was stopped. When our field workers heard about Manju in one of their monthly meetings with adolescent girls, in the village, they immediately went to her home. They understood the entire situation from the family and then counseled Manju. They informed her about adolescence and how infatuations do occur during this period. How she needed to focus on her studies and future career. They also counseled her parents to continue her schooling and education. They also met her school principal and explained the situation and requested them to re-enroll Manju in school. Manju started going to school again. Later she also realized that the young man was imbibing alcohol and meeting other girls in the village. This further dissuaded her from meeting him and Manju now completely focused on her studies. Thus timely counseling and support helped a young girl to overcome the turmoils of adolescence and save her future.

Meenakshi had delivered a baby seven months ago but she had missed her periods again. Panic stricken Meenakshi did her pregnancy test which was positive. She and her husband did not want a child so soon so they went to a local quack and took some medicines. She felt relaxed when she started menstruating after two days. But after few days her bleeding had not stopped. Meenakshi was now suffering from weakness, giddiness and inability to do work. Her husband took her to a private doctor who immediately referred Meenakshi to Kharel Hospital. Due to continuous bleeding her haemoglobin had dropped down to 3.4% and there were some fetal remains in the uterus. Meenakshi was given immediate treatment and blood transfusion. She was sent home when her health improved. But the question is, why was Meenakshi in such a serious situation? This shows that there is still lack of awareness and acceptance of spacing methods of birth control, hence the contraceptive needs of many couples like Meenakshi and her husband are not met with.

### Adolescent Health Education Project

Adolescence is the age of rapid physiological and mental changes and most of the adolescents are confused about the changes in their body. They have many questions but nobody to answer them. Our team of experts visits schools and conducts workshops for 9 to 12 grade students and helps them understand their physical and mental changes and how to cope with them. This year our team visited 14 High-schools and counseled about 3161 students. Our community workers also conduct monthly meetings in villages for adolescent girls and boys and discuss various health related topics with them. Girls and boys requiring personal counsel are visited at home. Even their families are counseled about how to support them.

**Table-7: Geriatric Project**

Sr.	Particulars	Number	Percent
1	Total people screened	3892	
2	Hypertension patients	735	18%
3	Diabetes patients	310	7 %
4	Cataract patients	363	9 %
5	Other health problems	449	11%

### Antenatal Care Project

Pregnant and lactating mothers in the surrounding areas need care and support during their pregnancy and after. Gram Seva not only provides free antenatal clinics to these women but our community workers also do home visits and counsel women and their families regarding antenatal and postnatal care, risks and safe delivery practices. This year about 928 women were followed out of which 623 women were delivered. All women were delivered under institutional care.

### Geriatric Project

Increase in life expectancy has also increased the

**Table-8: Health Education**

Particulars	No. of Sessions
Health Education in hospital wards	284
Health education in antenatal and post natal clinics	203
Evening Health Education sessions in Hospital	28
Health education in eye camps	12
Health Education in Schools	11

### Small steps towards green and clean environment.

Gram Seva has always been proactive in its efforts to save the environment. Various strategies like yearly tree plantations, ban on plastic bags, dishes, glasses in campus, using environment friendly electrical instruments, using air conditioners only where it is essential etc are followed and the need to be environment friendly is emphasized time and again to the staff. We have started using paper bags in the hospital dispensary, retail outlet for women and canteen since the last 15 years. Every month about 5000 paper bags made by our women's department are used. Thus we prevented use of 60000 plastic bags per year and about 900000 bags in 15 years.

prevalence of age related diseases like Hypertension, Diabetes, Cataract etc. The elderly in the villages have physical and economic constraints due to which they are not able to get medical services. Our community workers screen the villagers aged 50 and above for these non communicable diseases and those requiring medical help are referred to the nearest health centre. Patients are also followed and counseled regularly to maintain regular compliance and decrease complications of diseases. Total 3892 people aged 50 years and above from 15 villages have been screened.

### **Primary School Health, Hygiene and Nutrition Project**

To inculcate the healthy habits in children we selected 17 primary schools of Gandevi block

for this project. Our workers visited the schools monthly for 6 months and interacted with the children using games, songs and audiovisual aids. Messages regarding healthy practices, hygiene, nutrition, environment, were given through games and songs. About 1770 students from grade 1 to 8, enjoyed these fun filled and interesting sessions.

### **Health Education**

Gram Seva has always incorporated health education in all its activities be it hospital services or its outreach projects in the community. The main objective is to increase health awareness in the community thereby bringing change in their lifestyles and improving their health. Different health related topics are discussed, using audio visual aids, in the hospital wards, during antenatal and postnatal clinics, camps in schools and in villages.

## **Community Development Projects**

Gram Seva also implements activities to promote rural development. Our objective has been to improve education, hygiene & sanitation and women's empowerment by implementing different development projects and activities in the surrounding villages.

### **Parodh Balawas**

This Child Education and Development Centre is a hostel facility for children of poor, tribal, and

migrant workers. Total 88 children studying from std. 1 to std. 12 are not only given education but also extracurricular activities like sports, singing, computer, kitchen gardening and other life educations skills. It is heartening that 4 children, who would never have had the opportunity to study, have passed their 10th and 12th board exams this year. 34 students of Parodh have won prizes in various competitions in school. Students have also participated in inter-school sports events

### **Proper guidance and motivation helps strengthen the village committee**

Gram Seva has been entrusted with the trainings of 107 women federations in the villages. These federations were formed to empower women to solve their economic and social problems. But these federations are in their primary phase and require continuous trainings to strengthen them. During once such training in Rankuwa, women were discussing the problems in the village when they informed that during rainy season the sewer in one of the street was choked due to waste and the water overflowed and reached the homes of some women. They had individually lodged complaints but no action was yet taken. During the training they were informed that the committee members should help each other to solve their problems. The committee members then conducted a meeting and decided that all women members from whichever part of the village will join hands and clean the sewers themselves. Shouting slogans saying 'self help is best help' in vernacular language, they all cleaned the sewers and solved their problem. They thus utilized the knowledge gained during their trainings and this brought a sense of satisfaction in our field workers and also motivated them.

### Plastic free trainings

Gram Seva has been selected to impart training to women micro savings and credit groups called Sakhi Mandals, in villages of Navsari District. These are 5 day trainings and the women are given snacks daily during these trainings. In the initial trainings our field workers who were imparting training realized that large amount of plastic waste from dishes, spoons and glasses was being generated. Through frequent discussions in the organization, they knew the hazards of plastic waste and hence they decided to stop generating this waste. They explained to the village women the hazards to the environment specially their land and their cattle. They thus motivated the women to bring steel dishes, spoons and glasses from their home and prevent waste generation. Thus our workers and due to their motivation the villages women prevented waste of 50 trainings x 5 days x 20 women = 5000 plastic dishes, spoons and glasses.

and 9 students participated in Block level events, 8 students participated in District level events and 1 student participated in state and interstate events and won prizes.

### 'Shiksha Parab' Project

This tutorial project was started in villages to strengthen primary education for children. Volunteers from villages are trained to teach children the three 'R's i.e. reading, writing and arithmetic. They then tutor the tribal village children studying from std.1 to std.4. Children are also given value education and life skills through different activities. This year 208 children from 15 villages participated in this project.

### Sangee Sanitary Napkin Project

Gram Seva has started this project to provide low cost, eco friendly and easily disposable sanitary napkins to village women. The project not only helps women get low cost, hygienic sanitary napkins near their home but also gives the local, tribal, landless women opportunity to produce and sell sanitary napkins thus earning livelihood to help their families. This year women manufactured 28052 packets of sanitary napkins and earned ₹.265642/- . We aim to develop entrepreneur skills in women and form a cooperative of these women to help them expand their income generation activities. We take this opportunity to thank our donors and well wishers like Mr.Rameshbhai Shah (U.S.A.), AIPNO (Association of Indian Physician of Northern Ohio), Rotary Club of Gandevi and Hydrotronics

(Bilimora) for their constant support to our women empowerment activities.

### Kitchen Garden Project

This project motivates women in surrounding villages to start kitchen gardens in small spaces around their homes. Since women are already working in farms as labourers, they have knowledge about how to grow vegetables, but they do not know how to grow vegetables in small spaces or about nutrient values of vegetables. We at Gram Seva teach these women the importance of iron rich vegetables, scientific methods of cultivation and methods to retain their nutrients while cooking. We also help the women obtain good quality seeds by pooling their resources. This project not only helps women improve the nutrition of their families but also sell the excess vegetables thus earning some money. This year 45 women joined this project and produced about 35 kg each of 10 different vegetables during this rainy and winter season.

### Training to Micro savings and credit Groups

With the objective of promoting economic development of rural women, the Government has started sakhi mandals (self help groups or micro savings and credit groups) in villages. These groups are in need of continuous training to strengthen them. Gram Seva was given the responsibility of training such groups in Navsari District. The trainings consist of book keeping, disbursement of loans, distribution of work etc through role plays, games,

video shows, group discussions etc.

Our team has trained about 800 women this year.

### **Handicrafts and Household Products**

Gram Seva runs sewing classes for young girls and women from surrounding villages since last 16 years. So far more than 1200 women have been trained in sewing, thus enabling them to help their families

by earning a livelihood. This year 49 young women completed the six months sewing course. The women are encouraged to continue sewing after the completion of their course and their products are sold through retail outlet in the campus and also in exhibitions cum sales at different fairs and during festivals. Women are also trained in making handicrafts and other household products which are also sold in the retail outlet.

## **Other Activities**

### **Summer camp**

Every year we utilize the summer vacations to organize camps for students of surrounding villages. Children are involved in various activities like paper craft, puppet making, science games, story-telling etc. Thus exposing the children to various extracurricular activities and stimulating their minds. This year 387 children studying from std. 1 to std. 8 participated in the summer camps organized with the support of Desai Foundation (U.S.A.)

### **International Women's Day Celebrations**

Every year Gram Seva celebrates International Women's Day with the women from surrounding villages. This year our theme was Hypertension and Diabetes, silent killer diseases that are rapidly increasing in rural areas. More than 900 women participated enthusiastically in the programme. Women were made aware about these diseases through folk songs, role plays by staff and presentation by Dr. Ketan Zaveri, senior physician and medical author.

### **Annual Cultural Program by Parodh Balawas Children**

Our Parodh Balawas children enjoyed their last day of school before vacation by presenting a cultural program comprising of skits, songs and folk dances, showcasing their talent and in the process also learning values and art and culture of India. The

programme was attended by parents of the children, guests, trustees and staff of Gram Seva.

### **Newly Married Couple Workshop**

Couples in tribal area are married at young age, due to which they have to face many social and health problems. Every year Gram Seva organizes workshop for newly married couples to empower them with knowledge and information that can help them make right choices in their future journey. 78 people participated enthusiastically in this workshop.

### **Workshops for Adolescents**

This year we conducted three workshops for non school going adolescents. The objective of these workshops was to discuss with them issues related to physiological changes in adolescence, teenage pregnancy and its effects, menstrual hygiene, addictions and their affects, aim of life etc. through participatory approach with games and other fun-filled activities. About 213 adolescent girls and boys participated in the workshops.

### **Blood Donation Camp**

Every year we arrange Blood Donation camp in the hospital so that patients may receive blood when needed. These camps are supported by Red Cross Blood Bank, Navsari. Voluntary donors from Gram Seva staff, villages, students of ITI, Gandeva and ARB staff from Boriach Toll booth participate enthusiastically to make these camps a success. This year 47 bottles of blood was collected.

## Breastfeeding and Nutrition Week

Every Year we celebrate Breastfeeding and Nutrition Week in August and September respectively, in surrounding villages. Health education sessions and nutrition demonstrations are arranged on these themes to increase awareness in community regarding best breast feeding practices and healthy nutrition for families. This year about 1993 women participated in these sessions.

## Exhibition cum sale of Handicrafts and Household Products

This is our annual event around Diwali to increase the sales of products made by local women and thus help in increasing their income in the festive season. Around 10 days exhibition is arranged in campus

and also stalls are arranged in surrounding villages.

## Parodh Balawas Picnic

Education and excursion is the objective behind our annual Parodh Balawas picnics. This year 71 children were taken to visit the Gandevi Sugar factory and Soldhara eco point. The children enjoyed romping in nature and at the same time learnt the value of conservation of our environment.

## Best out of Waste Workshop

67 women participated in the two day best out of waste workshop conducted by Mrs. Amitaben Desai (Kuwait). Mrs. Amitaben has been our well wisher and comes regularly to conduct such trainings and workshops for women of surrounding villages.

## Other Information

### First case of organ donation in the hospital

Nilkanth Desai of Gandeva village had a fall and was brought for treatment to Kharel hospital. He was declared brain dead. His relatives were counselled regarding organ donation. As they gave their consent, the Institute of Kidney Diseases and Research Centre, Ahmedabad and Rotary Eye Institute, Navsari were immediately contacted. Their teams rushed to our hospital. Nilkanthbhai's kidney, liver and eyes were donated to needy patients.

Dr. Ashwin Shah has been awarded the Late Kikubhai Naik Award, for his services to the rural and tribal communities, by Gandhighar, Kacholi an esteemed organization in his hometown. Gram Seva family feels honoured by this award.

### Personnel Information

1. Dr. Vivek Rawal (M.D. Respiratory Medicine) joined our hospital. Rural patients benefited from his expert services.
2. We also welcome Dr. Rajnikant Vaghela (Gynaecologist), Dr. Rujuta Patel and Dr. Nikhil Gavit as Medical officers in our team.
3. We congratulate, Dr. Kanchan Dhadwe (Gynaecologist), who has finished her training in Laparoscopy and Infertility, which shall be very useful to the poor patients in the surrounding area.
4. Dr. Hiral Dave, Medical Officer (Community Health Dept.) has joined Post Graduate Diploma course in Public Health and Hospital Management, IIPH, Gandhinagar.

*The best way to find yourself is to lose yourself in the service of others*

*– M. Gandhi*

- Our trustees, full-time and visiting doctors, consultants, our dedicated staff and volunteers without whom we could not achieve anything. Also all doctors giving their services in our medical camps.
- All known and unknown persons for supporting the organization.

## Appeal

11 year old Vedant needs your support to live a longer and healthy life. He is suffering from immunosuppressive disorder. An illness in which his body has very low immunity and hence he is prone to suffer from frequent infections which can become fatal. Vedant's father died a few years ago. His father had spent his time and all his savings trying to find treatment for his child. Vedant was also taken to CMC, Vellore for bone marrow transplant but he was not found suitable for it. Now Vedant needs Immunoglobulin injections every 3 to 4 weeks throughout his life. These injections cost ₹. 22000 each time. His widow mother who works part time to support her two children, has to take Vedant to hospital frequently and cannot afford these injections. But Vedant cannot survive without these injections. These injections are the only treatment that will help Vedant fight infections. His mother works hard day and night, taking Vedant to hospital, trying to keep him away from infection and trying as much as possible to prolong his life. Gram Seva is trying to help Vedant all these years by finding donations for his injections. He is given free treatment in our hospital since last 5 to 6 years.

We request you all to help Vedant survive by donating to Gram Seva for his injections. Your small donations can collectively fund his injections. Please help as much as possible as your support will help a mother save her only son.

*'Reverence for life is the highest court of appeal'*  
- Albert Schweitzer

*One philosophy is not best expressed in words it is expressed in the choices one makes. And the choices we make are ultimately our responsibility.*

*- Eleanor Roosevelt*

## AUDITORS' REPORT

(Under sub section (2) of section 33 and 34 and Rule 19 of the Bombay Public Trust Act 1950)

Registration No. : E/896/Navsari  
Name of the Trust : GRAM SEVA TRUST  
For the year ended: 31st March 2019

We have audited the annexed Balance sheet of GRAM SEVA TRUST [(Reg.No E/896/ Navsari) situated at : N. H. No. 48, At & Post: Kharel, Dist: Navsari 396430] as on 31st March 2019 as well as Income and Expenditure Account for the year ended on 31st March 2019.

We have conducted our audit in accordance with auditing standards generally accepted in India. These standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

- The accounts are maintained regularly and in accordance with the provisions of the Act and Rules
- The receipts and disbursements are properly and correctly shown in the accounts
- The cash balance and vouchers in the custody of the treasurer or trustee on the date of the audit were in agreement with the books of account
- All books, deeds, accounts, vouchers or other documents & records required by us were produced before us.
- A Register of movable and immovable properties has been maintained and the changes therein have been furnished to us.
- All the necessary information required by us has been furnished to us by the Trustees personally whenever called upon
- No property or funds of the Trust were applied for any object or purpose other than for the object or purpose of the Trust
- There are no amounts which are outstanding for more than one year and written off
- For repairs, tenders are not invited but for construction involving expenditure exceeding ₹ 5000/-, tenders are invited
- The money of the trust have not been invested contrary to the provisions of section 35 of the Act.
- There is no alienation of the immovable property contrary to provisions of Section 36
- There are no cases of irregular, illegal or improper expenditure or failure or omission to recover money or other property belonging to the public trust or of loss or waste of money or other property thereof.
- The provision of Budget to be filed under Rule in the form under Rule 16A is not applicable to the trust. However, the Trust has policy to prepare the Annual Budget.
- The maximum and minimum number of trustees is maintained during the year.
- The meetings are held as provided by such instrument.
- The Minutes Books of proceedings of the meetings are maintained.
- None of the Trustees has any interest in the investment of the trust.
- None of the trustees is any debtor or creditor of the trust.
- The irregularities pointed out by the Auditors in the accounts for the year under audit are have been duly complied with by the trustees.
- There is no special matter, which we think fit or necessary to bring to the notice of the Deputy or Assistant Charity Commissioner

## You can help us...

Gram Seva Trust strives for Health and Development of Rural Communities, especially, its weaker sections like women, children and the elderly.

The activities of the organization depend on donations and hence there is a perennial need of donations and help. We sincerely request you to join us in these activities through your voluntary donations in cash or kind for the following:

### Permanent Donations Scheme

1. Poor Patients Relief Fund.
2. Eye Care Fund.
3. Bhojnalay( Kitchen) Fund.
4. Women Empowerment Fund.
5. Children's Welfare Fund
6. "Parodh Balawas" Funds
7. Anniversary Donations: these are donations on birth, death or any other anniversaries for treatment or food for the patients. The interest on the amount shall be utilised on the same day every year for the same purpose. ₹. 15000/- for this fund is accepted. The Donors name shall be displayed on a board that day.
8. One Meal for Hospital Patients- ₹. 2100/- (20 U.S.\$)
9. One Meal for "Parodh" Balawas children- ₹. 2100/- (30 U.S.\$)
10. Eye Camp- An eye camp and free cataract operations of all those coming in the camp are organised on donation of ₹. 40000/- ( 800 U.S.\$) and ₹. 1500/- (25 U.S.\$) for one cataract operation.
11. Support Education Expense of One Parodh Balawas Child: ₹.36000/year (600 U.S.\$/year)
12. General Donation

Interest shall be utilized from Corpus fund.

We also need donations for hospital and Balawas equipments. Kindly contact our office for more information.

We shall be happy to receive voluntary services in any of our activities like child education, skill development of youth and women, development of database, IEC materials, library, documentation etc.

Donations can be sent through cheques, Demand drafts or direct transfer, in the name of Gram Seva Trust.

All donations are tax exempted under 80G in India.

Donations in U.S.A, can avail tax exemption if donated to Gram Seva Foundation a 501(c)(3) tax exempt charitable non profit.
