About the organization

This logo symbolizes the objectives of the organization.

- The words in the outer circle are from the great Indian epic "Mahabharat", saying that "Nothing is above a Human being". This is also the motto of the organization.
- The triangle in the inner circle symbolizes the hands of three people and stands for community development through participation.
- The light from the lamp in the small but in the centre symbolizes the development of the weakest and poorest person of the community.

Founder trustees of the organization were inspired by Gandhian thinking and work of great men like Albert Schweitzer. They felt deeply the agony and hopelessness of poor villagers. They saw the plight of villagers and felt a need of medical services in these villages. Hence they brought like minded friends together and founded Gram Seva Trust, an organization dedicated to rural health and development.

In 1994 the trust started a 30 bedded hospital with 5 staff members in an old dilapidated building, given by another trust. As the need arose the hospital was expanded to accommodate more patients and better services. Today the hospital can accommodate 100 patients and has all basic facilities required in a rural hospital providing health services at affordable rates and sometimes free of charge to the needy from nearly 300 surrounding villages of Navsari and Dang districts.

The organization also wanted to improve health of the surrounding villages hence as and when need was identified different community projects were started in the surrounding villages with main focus on health and development of women and children. Immense efforts are put in to decrease malnutrition. Gram Seva Trust also reaches out to the tribals in deep interior villages of Vansda and Dang through satellite centers and general medical mega camps arranged every year.

The organization has also started different projects for development of villages like income generation activity, trainings for income generation activities, adolescent girl project, tutorial classes to strengthen primary education and a Child Education and Development Centre to improve standard of education in children of landless labourers.

Vision

- Healthy, Happy, Self sufficient and Self-Empowered Rural communities.

Mission

- Cater to the Health need of every individual in the society irrespective of caste, creed or economic status.
- Render special care to women and children of our society.
- Promote curative and preventive measures in order to improve the general well being of the society.
- Uplift social and economical status as well as rural development with scientific and rational approach.
- Create awareness for healthy qualitative life and development.

Editorial

Hello friends,

Wish you all a Happy New Year!

You all have been our support in our health and development activities for the last 30 years. Each year we try to strengthen our services with improvement in our projects or start need based new projects in the hospital and community. This year we have started the 'AANGAN' project, for increasing community awareness about 'Early Child Nurturing Care'. This report brings to you the statistical and financial information of all these activities.

The Dangs are interior, hilly, forest areas with poor health services and we have started focusing on different health and development activities in 41 villages and plan to extend our activities there.

We hope that you continue your support and guidance to the organization and its activities. Looking forward to your opinion and suggestions.

Thank you,

Thank you,

Dr. Ashwin Shah,

(Founder & Managing Trustee)

On behalf of the Trust Board.

Dt. 14-12-2024

Place: Kharel.

We request you all to visit our websites

Hospital Services

More than 80000 patients treated in OPD

The increasing community health needs generates a demand for easily accessible and affordable medical services in the rural areas. Our hospital at Kharel was started with the objective of providing affordable medical and clinical services to the tribal and semi tribal community in this area. As the community needs increased, the hospital has expanded to 100 beds with different medical services in Medicine, Surgery, Gynaecology, Paediatrics, Orthopedics, ENT, Ophthalmology, Dentistry, Plastic surgery, Skin, Neurology, Nephrology, Cardiology etc. The hospital provides out-patient and in-patient medical services with Operation theatres, Dialysis, NICU, ICU, X-ray, Laboratory, USG, 2D ECHO, Ambulance and Kitchen facilities. Thus the hospital strives to provide rational, good quality and affordable clinical services under one umbrella to patients of nearly 300 villages of Navsari, Dang and Surat districts. Our donors, well-wishers and government schemes have helped us significantly to provide free medicines and affordable medical services to the patients.

Every Thursday we conduct Sickle Cell Clinic in the hospital

Antenatal Care

This year 4921 pregnant women were given free antenatal care.

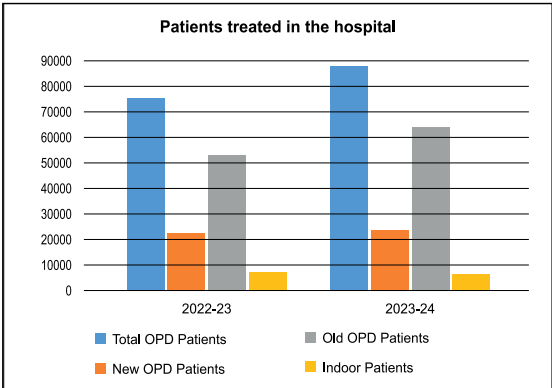

Table 1: Hospital Statistics

Department	2022-23	2023-24
Consult by Sp.Doctors	74998	88233
Surgery	2688	3074
Delivery	1156	1305
T.B. Patient	63	54

X-Ray	5066	4645
Sonography	461	1492
Physiotherapy	2445	2568
Dental	1002	1156
Total Dialysis Session / Free Sessions	2318 / 2259	3053 / 3011
Snake Bite Patients Treated	86	90
Free Food Dishes	62551	68071

Every pregnant woman, whether in urban or rural area, should receive good antenatal and safe delivery services. Our hospital provides 24*7 obstetric services at affordable rates to the women in surrounding villages. Three free antenatal clinics are conducted every week where they are checked by gynaecologists, laboratory tests are done and medicines are given free of cost. In recent years we are seeing increase in caesarean deliveries in the hospital (34.41%). 52% of our total deliveries are complicated deliveries in patients with sickle cell anemia, severe anaemia, high blood pressure, convulsions, bleeding etc. Surrounding government health centres also refer their complicated patients to our hospital. These complicated cases require intense care and team efforts to prevent maternal and child mortality. This year our gynaecologists and their team have been able to save about 18 women from near death.

Every Tuesday we conduct Infertility clinic in the hospital, when check-up, lab tests, guidance and treatment is given to couples.

Neonatal Intensive Care Unit (NICU) services

This year 304 new-born babies out 324 were saved by NICU care.

It is difficult for many families to afford the high costs of neonatal care for new born babies who are preterm or have any health problems. Hence we provide NICU services at our hospital, at very affordable rates and often free of costs to poor families. New-born babies, especially preterm babies are small, delicate and vulnerable to health complications. Hence they need intensive care to prevent any mortality. With diligent and meticulous care we could save about 91.66% new-born babies this year. On discharge the NICU babies are regularly followed for a year, by hospital visits and telephonic calls. This year we could follow 257 babies (89.2 %) for a year.

Monthly maternal and child death review meetings are conducted with our medical and para medical staff. These meetings help us understand and further prevent such mortalities by timely intervention, follow ups and counselling

at family and community levels. Our community health staff conducts home visits of all new-born babies to examine the babies along with counselling and support to the families.

Dialysis Department

This year 370 patients were given total 3053 dialysis sessions out of which 3011 were free of charge.

Chronic kidney patients require frequent dialysis sessions for their survival. These sessions are expensive and mostly available in the towns and cities. Our dialysis centre in the hospital offers affordable sessions to the patients in surrounding rural areas, thus saving their time and money. The hospital is also attached to the Ayushman Bharat scheme (Govnt. supported social insurance scheme for the poor) which helps us give free dialysis sessions to the patients and also reimburse their travelling expenses.

Sukhabhai Govindji Eye Department

203 patients benefitted from our free eye camps and received new vision this year.

Blindness due to cataract is a major problem in the elderly which makes them vulnerable and dependent on others. Fear and poor economic condition prevents them from seeking help. Our Sukhabhai Govindji Eye Department helps give new vision and lease of life to such patients by conducting free eye camps every month. This year twelve free eye camps were conducted in which 1622 patients were checked, 203 free cataract surgeries were conducted and 182 free spectacles were given.

Every second Saturday of the month free eye camp is conducted in the hospital, in which eye check-up, spectacles for near vision, cataract surgeries, other minor eye surgeries and medical management is done free of cost.

Cervical Cancer Clinic (Clinic in Suitcase)

This year 713 women were checked for cervical cancer and 13 were given cryotherapy.

	<ul style="list-style-type: none"> • Drishti, District Blindness Control Program, Navsari • Rotary Eye Institute, Navsari

Note: The statistics in this table are exclusive to eye camps conducted in the hospital

Cervical cancer is a leading cause of cancer in women in India. Our cervical cancer clinic provides free gynaecological check-up and management of cervical lesions at the OPD level. Thus precancerous conditions are managed early preventing cancer in women. Mangala Prem Trust (U.S.A) and Rotary club of Gandevi, who have provided the equipment for screening (VIA method) and Cryotherapy tools for this clinic continue their support by arranging camps at Dhanori, Gadat, Amalsad government primary health centres. Total 4 camps were organized in which 145 women were checked.

‘Abhinav’ District Early Intervention Centre (DEIC)

About 4158 children with congenital deformities, development disorders and other major health problems were given treatment by our DEIC team.

Our ‘Abhinav’ DEIC centre, started in Jun’19 under the RBSK program, has been giving holistic management to children less than 18 years for various health problems. Our team of paediatricians, physiotherapists, social workers, counsellors, paramedical staff and consultants like orthopedicians, neurophysicians, cardiologists, ophthalmologists, endocrinologists, nephrologists, ENT specialist, speech therapist & audiologists etc.

are dedicated towards optimal development of each child. We conduct free 2D ECHO camps every two months to manage and follow all children with heart problems. We also coordinate with higher centres for children requiring further management so that each child receives complete medical management. The management of these children is supported by GCPL, Dahej our CSR partner.

Annapurna Bhojnalay,

This year 68071 patients and their attendants were given free meals by our Annapurna Bhojnalay.

Patients in the hospital come from distant villages. Our Annapurna Bhojnalay distributes free meals and milk twice a day to all our general ward patients. Attendants of these patients are also given two free meals per day. Others are also given meals at very affordable rates.

Table 3: Statistical data of DEIC

Diseases	1146	1313
Total	3641	4158

Medical Relief

This year 52.56% of the hospitalised needy patients were given a relief of ₹. 54674691/- and medicines worth ₹.1906512/- were given free to OPD patients.

About 80 percent of the patients coming for hospital services are poor and needy. We try to provide all

medical services and facilities at affordable rates to these patients so that no patient is deprived of medical care due to lack of money. Since last eight years, with the support of our donors, we also provide free medicines to patients in OPD. This is to help decrease their economic burden, especially for patients who are suffering from long term (chronic) illnesses. We are thankful to the support by our donors and well-wishers and hope for their continuous support.

Blind Faith and Superstitions make life miserable

Vanitaben (name changed) was resident of Dang district about 100 kms. away from Kharel. She was suffering from heavy menstrual bleeding which continued for days. Both her mother and sister also suffered from the same problem and eventually died after prolonged illness. Hence Vanitaben and her husband were worried. They consulted many local traditional healers offering small animals and doing many rituals. But there was no improvement in her health. So they visited a private hospital nearby. Vanitaben was informed that she needed surgery which would cost ₹.35000/- Since Vanitaben and her husband did not have the required money they went back home. Now the helpless husband, who couldn't afford his wife's treatment, to absolve himself from the guilt started calling her a witch who killed her own mother and sister due to this illness. Thus there were frequent fights between them. Our community health workers who had already advised Vanitaben to visit our health centre at Shivarimal, but whose advice she had not heeded, once again counselled her to visit the centre. This time she heeded their advice and visited our health centre. She was once again advised to undergo surgery. This surgery would be done at our hospital at Kharel and cost ₹.30000/- Since Vanitaben could not afford this amount and in spite of having Ayushman Bharat card (government health insurance scheme), her surgery was not allowed under this card, we decided to give relief in her bill. Thus Vanitaben underwent surgery, which cost her ₹.8000/- (rest was waived off by our hospital) and went home happy and relieved.

Timely advice proves beneficial.

Bansirambhai (name changed) from Dang suffered from frequent pain in abdomen. He often bought medicines for pain from the local shop and treated himself. When the frequency of pain increased he visited the local civil hospital but found no relief. Now the pain was continuous and could not be relieved by local medicines. Our community health worker advised him to visit our centre at Shivarimal. There he was advised to come to Kharel where he was diagnosed with intestinal perforation. He was operated immediately. Since Bansirambhai did not have any insurance he was given considerable concession in his bill. Today his is well and thanks our hospital and staff for saving his life.

Sanjanaben (name changed) living in a small village in Nasik district of Maharashtra was suffering from abdominal pain. She visited many hospitals in Nasik city, but even after spending nearly 25000 rupees, she had no relief. Her relative advised her to go to our health centre at Shivarimal, Dang. There she was diagnosed with appendicitis and advised surgery at our hospital at Kharel. She immediately came to Kharel and was operated. Since government insurance scheme for patients in Maharashtra is not easily accepted by the agencies, she was given relief in her hospital bills. Sanjanaben came for her follow up and was very happy, as she could now do all her household and farm work without any pain. She was thankful to the hospital and staff for her treatment, care and food.

Only from the heart can you touch the sky.

■ Rumi

Services in Interior Areas

Satellite centres

Our satellite centre dispensaries served 7956 patients from interior forest areas.

Patients from distant interior villages in Dang district travel more than 100 to 200 kms. to get medical services. Our two satellite centres at Kudkas and Shivarimal in Dang provide affordable medical services once a week, to such patients near their home saving their time and money. Not only patients from Dang but also from borderline villages of other districts in Gujarat and Maharashtra come to this centre for medical care. This year our team of doctors and paramedical staff conducted 102 visits

Table 4: Satelite Centres

Particulars	2022-23		2023-24	
	Kudkas	Shivarimal	Kudkas	Shivarimal
Total Visits	52	48	51	51

Mega General Camps

3059 poor patients received free surgical and medical care through our annual mega-camps in interior forest areas of Dang and Maharashtra.

To reach further to the patients in interior most areas of Dang and Maharashtra we conduct annually mega- general camps, where our team of consultants

in various branches like medicine, gynaecology, paediatrics, orthopaedics, ENT, ophthalmology and paramedical staff provide free medical and surgical services to the patients. Patients coming to the camp are given medical management in the camp and those requiring further medical and surgical management are brought to Kharel hospital over next one month and given free services. About 700 to 1500 patients are checked in one camp.

Antenatal care during pregnancy is necessary to prevent complications in both mother and child.

37 years old Vasantiben (name changed) was pregnant for the 4th time. She and her husband both worked in a brick factory for their living. Vasantiben did not go for any check-ups or took any antenatal medicines and care. One day she suffered from severe back pain and was brought to our hospital. On examination she was diagnosed with 7 months pregnancy, pre- term labour pains, severe anaemia (Hb 2.8 gm%) and swelling all over her body. She was kept in the ICU for intensive care, given oxygen and medicines to stop the pain. Three bottles of blood was transfused. At the same time injections were given to increase the lung maturity of the foetus. Vasantiben's and her baby's health were continuously monitored for any signs of complications. Her ultra sound report showed decreased fluid around the foetus which was detrimental to the baby's health and this required immediate caesarean delivery to save the baby. But Vasanti needed one more bottle of blood before her caesarean. She was transfused with blood and then immediately taken for surgery. Pre term baby with birth weight 1.7kg was delivered and immediately shifted to the NICU for further intensive care. During the stay in the hospital Vasantiben developed severe cough and needed tests to rule out Tuberculosis and other severe lung diseases. After a prolonged stay in the hospital both mother and child were discharged and come regularly for their follow-up.

Lesson learnt

58 years old Chanabhai (name changed) was a farm labourer and daily wage earner. One day he felt weakness in his body and difficulty in walking. Later he also lost his ability to speak and suffered from left side paralysis. A local doctor was consulted and he was started on medicines. But after few days his treatment was stopped by his relatives and he was taken to local traditional healers. When there was no improvement, they visited other traditional healers. But there was no change in Chanabhai's condition. His daughter frequently requested them to take him to a hospital. But they did not heed her advice and continued visiting different traditional healers. After frequent visits and counselling by our community health workers, finally they agreed to bring Chanabhai to our hospital at Kharel. He was admitted in the hospital and some tests and CT scan were done. His report showed occlusion of brain blood vessels due to blood clot. He was treated accordingly. Since his economic condition was weak, his Ayushman Bharat card was prepared, which helped giving him free treatment. He was also started on physiotherapy. Slowly his physical condition improved and he was discharged. He came regularly for follow up. Today he can walk and speak. Not only Chanabhai was given a new life, but his relatives also learned that health problems require scientific and rational treatment.

Timely intensive care saves a life.

One night 60 year old Sitaben felt something bite near her ear. She suddenly woke from sleep and found a snake pass by. She woke up her son but by then the snake had slipped away in the grass. Sitaben's son brought her to our hospital. By then she was suffering from giddiness and drowsiness. There was pain in her body and she could not swallow water or food. On examining Sitaben, the doctor's felt that she must have been bitten by a krait. These snakes are known for biting people at night and their venom is neurotoxic i.e acting on the nervous system. Hence these patients need intensive care and ventilator support. Sitaben was immediately shifted to the ICU and given anti snake venom (ASV) injections. Total 21 free ASV injections were given and after 3 days of intensive care Sitaben was better. She was monitored in the ward for 4 more days and then discharged. Thus a smiling Sitaben and her relatives went home after a week of treatment.

Community Health Services

The organization not only wants to provide hospital services to the community but also improve their health through health promotion and preventive services. The community is ridden with health problems like malnutrition, anaemia, hypertension, diabetes and now mental health issues. Hence we are trying to help decrease these health problems through screening, health awareness, lifestyle changes and outreach health services by Gram Seva Sayaks (community health workers/ volunteers in the village). Our focus has been women and children who are the vulnerable sections of the society needing care and guidance.

Child Health and Nutrition

About 1923 children were treated for malnutrition

In tribal, rural communities children suffer from malnutrition from the womb. This malnutrition further affects their growth and development, immunity, morbidities and overall well-being many a times leading to early mortality. We have adopted 100 Anganwadis with about 3500 children, in 22 villages

of Chikhli and Gandevi blocks of Navsari district with the objective of improving the health of these children aged 0 to 6 years. Our focus is on screening for malnutrition, providing medical and referral services and increasing health awareness in parents, families and communities through home visits, counselling, nutrition demonstrations and other health awareness sessions.

Project 'AANGAN'

Initial 6 years of childhood are very crucial for the growth and development of children, especially their brain development. About 80 % of brain development is by 3 years of age and 90 percent by 6 years of age. Hence it is very important that parents and caretakers provide a safe and nurturing environment to the children for their optimal growth and development. Children being our future, WHO has started a worldwide campaign to promote early childhood development activities. Surat Paediatric Associations Charitable Trust (SPACT) wanted to initiate this campaign in Gujarat, hence we have started a pilot project in 49 anganwadis of Chikhli block of Navsari

Table 6: Nutritional Status of Children

Year	Total number of children	Normal Nutritional Status	Percent	Mild to Moderately Malnourished	Percent	Severely Malnourished	Percent
21-22	1587	917	57.78	508	32.01	162	10.21
22-23	1525	939	61.57	411	26.95	175	11.47

14	Adolescent girls attended the meetings	268
15	Total home visits of children by GSS workers	1243

District. With the technical guidance of SPACT and Nutan Bal Shikshan Sangh, Vadodara and monetary support by Gujarat Chemical Port Limited (GCPL), Dahej and our field work experience, this project aims to cover over 1500 children by training their parents, care takers and families in importance of early childhood development and activities related to it. Parents and families will be trained and motivated by monthly meetings and home-visits by our village level workers. We are thankful to all our partners in this project and the ICDS department for their full support.

Antenatal care in community

About 829 pregnant women in 22 villages received complete antenatal, delivery and postnatal care.

Rural tribal women have early marriage and early pregnancy leading to maternal and foetal problems. In co-ordination with hospital antenatal clinics, our community health staff follows all pregnant women, visits their home and counsels them and their families regarding good antenatal care, safe delivery and post natal care. This helps increase awareness in community and helps in preventing morbidities and mortalities due to complications.

Table 8: Antenatal Care

Sr.No.	Particulars	2023-24	
		Total	percent
A	Total Pregnancies	829	
	Outcome	635	76.60

	MTP	13	2.05
	LBW	184	29.97
	Twin Deliveries	7	1.15
	Maternal Mortality	1	0.16

Adolescent Health Education

About 957 health education sessions conducted for over 3000 tribal adolescent girls and boys.

The organizations community health workers (gram seva sahayaks) are trained to educate adolescent girls and boys about menstrual health, reproductive health, addictions, anaemia, nutrition, sickle cell anaemia etc. They give these messages using audio visual aids, role plays, case studies, games etc. during their monthly health education sessions. This helps the adolescents, who are experiencing rapid physical and mental changes, gain scientific knowledge regarding their body and health and take well informed decisions about their life. These sessions are not only conducted in community meetings but also in schools and technical training centres.

Table 9: Adolescent Health Education

Sr.No	Particulars	No. of Sessions	No. of adolescents attended	Average attendance per Month
1	Adolescent Girls	812	12338	1028
2	Adolescent Boys	145	1824	152
3	Total	957	14162	1180

Non Communicable Disease Project

More than 4000 patients of Hypertension and Diabetes were given health care.

Now a days diseases like Hypertension and Diabetes are seen in young people in their thirties and forties. If not controlled they may lead to complications like heart attacks, paralysis, kidney diseases, blindness etc. Hence we have started door to door screening of people aged 30 years and above for high blood pressure and high blood sugar. Patients are counselled regarding their treatment, importance of regular compliance, management of their illness and lifestyle changes. We are thankful to UHRU (U.S.A.) for their monetary support to this project.

Mental Health Project

About 128 patients with severe mental health problems have been started on treatment and 20 of them have been rehabilitated and are working for their livelihood.

Since last two to three years we have started the community based mental health project in villages in Navsari and expanded it to Dang this year. Our community health workers (gram seva sahayaks) screen families for mental health patients and counsel

them regarding treatment, compliance and social rehabilitation. Patients are not institutionalized but treated at home, in the loving and familiar environment of their families. This has shown fast recovery of patients and support in early rehabilitation. This project is also funded by UHRU, USA and we are very grateful for their supported in bringing significant change in the lives of these patients and their families.

AAA+ Project (Adivasi Arogya Sambhal Ane Arthik Vikas Project, Dang)

This project helped in treating 5993 patients of interior villages of Dang, through its mobile clinic.

The remote areas of Dang have poor health and communication facilities. Many a times, patients travel hundreds of kilometres to reach Kharel for treatment. During their treatment we found that people were mostly suffering from health problems like malnutrition, anaemia, hypertension and diabetes. Hence with the support of K.R.Shroff Foundation (Ahmedabad) we started this project in 25 villages of Waghai block. The above mentioned health problems are tackled by providing mobile clinic services and training to village level health workers. These community health workers (gram seva

Table 10: Non Communicable Disease Project

sahayaks) monitor the patients for blood pressure and blood sugar control and generate awareness in the community. We are extending these activities to 16 more villages starting with a baseline survey.

Health awareness activities.

More than 660 community health awareness activities have been conducted this year.

Increasing health awareness is the base of all our health activities. There is lack of health awareness in rural areas causing majority of health problems which can be prevented. Hence we use every opportunity to conduct health awareness sessions in the hospital wards, clinics, camps and in community outreach activities.

Need of mental health awareness in community

Mitali (name changed) student of std.10th was hearing voices telling her to commit suicide. Her behaviour had changed since some time. She was talking less, had become aloof and started walking alone in the village. The voice that Mitali heard, continuously pressured her to commit suicide. One day under duress she ingested some medicines at home and tried to commit suicide. Her parents immediately took her to a government health centre and saved her life. When our workers heard about this episode they visited Mitali's home and spoke to her and her parents. They counselled them that these could be signs of mental illness and that they should consult a psychiatrist. But her parents were not ready to accept that their daughter was suffering from mental illness. They were scared of the stigma this would cause. They wanted to hide her illness from their neighbours and other villagers. After frequent visits and counselling they finally agreed to meet our psychologist. Our psychologist counselled them about her condition and the helpfulness of medicines. Her mother now agreed to consult the psychiatrist and hence Mitali was started on medicines by the psychiatrist. Mitali is feeling better and is compliant in her medicines.

Rural Development Projects

Women Empowerment

Skill development activities

Developing skills and capacity building is an important component of our Women empowerment activities. Hence we give training to rural women in different skills like sewing, beauty parlour and agriculture based activities like mushroom cultivation, seeding nursery, kitchen gardening etc.

Sangi Sewing Classes

250 village women were trained in sewing by our mobile sewing classes this year.

Over the years more than 2500 women have been trained in sewing. Initially we conducted our sewing class at Kharel but many young women could not commute due to high travelling expense. Hence we started our mobile sewing classes which saved time and money for the young women. This year about 250 women were thus trained in their village itself saving nearly ₹. 5,85,000/- travelling cost. Out of which 100 women have started earning their livelihood and supporting their family. We are thankful to Manav Kalyan Trust and Desai Foundation for their support to these activities.

Sangi Advanced Sewing Course

44 women were trained in advanced sewing technology this year.

With improvement in technology sewing machines have become advanced, increasing the sewing capacity and improving the finishing of the products. This decreases their cost price and increases their income. Rural women need training in this modern technology to improve their skills and build their capacity for better and more work thus increasing their income. With this aim we started our advanced sewing classes this year.

Beauty Parlour Courses

81 women were trained in Beauty Parlour course

There is increasing demand for beauticians during festivals and wedding seasons even in the villages. To help local women supplement their family income we started 3 months beauty parlour courses for rural, tribal women in Navsari and Dang. The women were also given start up kits to support them. It is heartening that many women got orders during their training and have started their own beauty parlour units. This project was funded by Desai Foundation (U.S.A).

Vegetable Seedling Nursery

21 women were trained in developing vegetable seedling nursery.

Women in rural areas are associated with and well versed in farming activities. Hence they easily learn new farming skills. We conducted trainings in vegetable seedling nursery for such women to help support their income. They are now growing seedlings for vegetables like brinjal (aubergine), tomatoes, chillies etc. which they use in their farms and also sell to other farmers.

Mushroom Cultivation

130 women were trained in mushroom cultivation.

Mushroom is a delicacy in local tribal food. It is available only in rainy season. Hence we decided to train women in mushroom cultivation so that this highly nutritive food is available to the villagers even in other seasons and the women can supplement their income. With the help of Krishi Vigyan Kendra, Waghai we conducted three trainings in Dang district. One training was also conducted to train women in various mushroom recipes for more value addition.

Financial Literacy Classes

646 rural women attended Financial Literacy classes.

In booming economic development in India only 27% people are knowledgeable about finance management. And the numbers decrease as we go to rural India. Our financial literacy classes train youth and women in villages in financial aspects like income, expense, banking, savings, insurance schemes and different government schemes. 33 classes were conducted this year. This knowledge helps them in making appropriate decisions regarding their finances.

Jewellery making classes

133 women were trained in jewellery making and festival decorations.

India is a land of festivals, which are also periods of increase in shopping activities by the people. Local women were trained to make products and

accessories according to the local needs of the festival. Thus women made Raakhis, Navratri accessories and diyas (earthen lamps) in Diwali and sold them for about ₹.120200/- thus boosting their confidence. Every year we try to train them in different designs and marketing strategies to help them increase their sales. This project is supported by Desai Foundation (U.S.A.).

Income generation activities

Skill development activities need to be followed by income generation activities to empower women. When the products made by local women reach the consumers, then the cycle of women empowerment is completed. Rural women need initial support and hand holding for their income generating activities like productions, sales and marketing etc. Our Gram Sangi Project supports about 160 local such women by following activities.

Sangi sanitary napkins

Village women sold 61737 packets of Sangi sanitary napkins worth ₹.16, 88,202/- and earned ₹.4, 11,239/-

This year Sangi napkins project was extended to villages in Dang. On initial survey we found that women in many villages in Dang did not have any access to sanitary napkins. These are now made available with depot holders in their village itself. This project not only helps women in earning money through production and sale of sanitary napkins, but also provides access to affordable, eco-friendly sanitary napkins near their home thus helping them in menstrual hygiene management.

Sangi Green Stove project

This year 4095 more families (especially women in these families) get relief from exposure to harmful smoke while cooking)

Sangi green stoves have saved 34739 kgs. wood (which was used as fuel) thus helping in forest conservation and environment sustainability. Studies show that nearly 4 million people die every year due to air pollution caused by wood fuel smoke. This smoke affects the health of not only women but also the elderly and children in the family. Sangi green stoves made with the help of modern technology cook food faster, reduce use of wood fuel by 60% and smoke

by 70%. Gram Sangi women in villages earned about ₹. 3,49,500/- by counselling the villagers and distributing these stoves. Till date 9594 stoves have been distributed in the villages.

Sale of different household products

Gram Sangi women who are selling sangi sanitary napkins and distributing green stoves are now also encouraged to sell other products made by other village women eg. raincoats, nighties, mosquito nets, agriculture tools, handicrafts and garments,

seedlings, mushrooms etc. Thus they are now selling a basket of different products, which helps them earn more income and thus boosts their morale.

Roshni Women's Centre.

Products made by our village women after their trainings in sewing, sanitary napkins, handicrafts and agriculture products are sold at an outlet in our campus called Roshni Women's Centre. These products are also made by order. They are also sold in exhibitions and sales at different festivals and fairs.

Child Education and Development

'Parodh' Balawas (Child Education and Development Centre)

This year 79 children of migrant workers attended formal school in our Parodh Balawas.

Education is the right of every child. But some children are deprived of this right due to their circumstances. Our Parodh Balawas provides residential facility for children of migrant workers, and farm labourers for their education and development. Our focus is not just the education of children but overall physical, mental and emotional development of children in a loving & caring environment. Our children are not only getting good education but they also participate in various extra-curricular activities in school and in interschool competitions. This year 59 students out of 64 won 1st to 3rd prizes in various competitions. One student has qualified the secondary school board exam and one student completed her graduation and is studying for her masters. Students who are not interested in formal education are encouraged to do vocational courses so that they earn their livelihood after going back home.

21 children of Parodh Balawas were taught English by 10 volunteers from India and abroad through the 'Read a story' program. The objective was to conduct weekly online sessions and teach children English with the help of stories. This program was technically supported by 'Read a Story' organization in Pune, Maharashtra and funded by Mrs. Amita Desai (Kuwait).

Shiksha Parab (Tutorial classes for children)

Our tutorial classes worked towards strengthening the primary education of 644 children of farm labourers)

Primary education in villages is lacking due to various reasons especially in children of farm labourers who themselves are uneducated and also lack time to educate their children. It is our aim to strengthen the primary education of these children through our tutorial classes conducted by village volunteers. To make education fun and without stress we incorporate different methods like games, songs, role-plays, quiz, experiments, library etc. in our activities.

Activity Based Child Development (ABCD) Project

492 primary students participated in Life education sessions conducted by our ABCD project team.

Children in city areas are exposed to various activities which help in their development. Whereas rural children are deprived of such activities due to lack of facilities. We tried to conduct monthly life education sessions with students of 12 primary schools, where they participated in various activities like games, discussions, videos etc. Messages regarding environment, safety, health, nutrition, aim in life, hard work, education etc. were given through these sessions.

Other Major activities

Blood Donation Camp

The hospital requires blood to save lives of accident patients, sickle cell patients, delivery patients, etc. We get blood from Indian Red Cross Society's Blood Bank in Navsari. To help this blood bank, we conduct a blood camp every year. Our staff and students of nearby technical institutes donate blood regularly for this purpose. This year 65 bottles of blood were collected.

World Environment Day Celebrations.

Environment day was celebrated by our staff by cleaning the hospital ground and campus for two hours. A collective feeling of responsibility to the organization, nation and the environment was generated by this activity. The staff participated in this activity with great enthusiasm and joy.

Support Forum Meeting

Support Forum is a group of voluntary organizations and individual volunteers, who meet every year to share their experiences, network with their friends and support each other through thick and thin. This year the meeting was conducted on 23rd and 24th December at Gram Seva Trust campus at Kharel, when 25 members participated. A visit to the historical Dandi beach and Salt Satyagraha memorial was also enjoyed.

Internships

Students from different colleges and universities come to the campus as interns to gain knowledge

and practical experience. This year 99 interns were enrolled.

Sr.	Department	Interns

Great Place to Work

Gram Seva Trust has been certified as Great Place to Work for consecutive 4th Year by Great Place to Work Institute, Mumbai, India.

Personnel

- CPS DGO Course - Dr. Kunal Prajapati and Dr. Smit Patel have joined the hospital in Ob-Gy department as students of CPS Diploma in Gynaecology and Obstetrics.
- DEIC - Dr. Renuka Solanki has joined as clinical psychologist.
- Community Health Department- Dr. Viraj Bagul has joined as Community Health Project Officer
- District Residency Program - 2nd year post graduate students joined the hospital for 3 months training under the DRP program. Pathology -1, General Medicine 3 and Skin -1.

Condolences

Our deepest condolences to families of our friends and well-wishers who passed away this year. We are grateful for their support to our activities. They will always be in our prayers and memories.

Empowering women and their families through skill development.

24 years old Unnatiben (name changed) was a farm labourer who worked in farms on daily wages to support her family. She lost her brother suddenly and the responsibility of her whole family fell on her. She was less educated and hence her efforts for a job came to no avail.. She knew how to do henna designs and was interested in becoming a beautician. But these classes cost about ₹.25000 to 30000 in addition to daily travelling expenses. She could not afford these classes. Mean while she heard that Gram Seva was organizing 3 months beauty parlour classes near her village. She immediately joined these classes. After completing three months course successfully, she received a certificate and start-up kit. She used this start-up kit to take orders and start her work. In a short time, she earned ₹. 30,000/-. She utilized this amount for her household needs and also bought new supplies for her work. This gave her new confidence and she feels she can independently support her family with her income.

Acknowledgement

We heartily acknowledge and thank all for their help and support and we take this opportunity to express our heartfelt gratitude.

- All the well-wishers and donors in India and abroad who support us in achieving our objectives.
- K.R.Shroff Foundation Ahmedabad financial support for AAA+ project in Dang.
- GCPL, Dahej for DEIC project, SNCU, hospital up-gradation, project 'AANGAN' and women skill development activities.
- Unified Healthcare for the Rural Underserved (UHRU), U.S.A for their monetary support for Mental Health Project and NCD Project.
- Desai Foundation (U.S.A.) for their monetary support for Sewing classes, Beauty parlour classes, Shiskhan Parab, ABCD project and Financial Literacy and Banking Workshop.
- Manav Kalyan Trust for supporting the Shabri Women's Development Centre and Shri Bharatbhai Desai, Shri Arvindbhai Shah, Shri Ghanshyam Patel, Shri Viratbhai Kothari and Blind school Shivarimal team for their whole hearted support in all our activities
- Mangala Prem Trust, Nalini Shah Cancer Foundation, Shri Ramesh Shah, Anekant Community Centre (U.S.A.) and Rotary Club of Gandevi for support to Cervical Cancer Clinic in Suitcase program.
- Helping Hands of Germany.
- SPACT, AOP (Gujarat) and Nutan Bal Shikshan Sangh (Vadodara) for their technical support, project planning and training to staff.
- Smt. Nimittaben Bhatt and Dr. Ashwin Patel for their training and Technical support to the Mental Health Project.
- Smt. Amitaben Desai, Read a Story organization Pune and all volunteers for their support to online English classes for our Parodh Balawas children.
- MA Foundation team Vapi for their support to our children development activities.
- KVK, Waghai for technical support and trainings in Vegetable Seedling Nursery and Mushroom Cultivation.
- Greenway Grameen Infra Vadodara for Green Stove Project.
- All Gram panchayat members and villagers and staff for support in the mobile Sangi sewing class project.
- Support Forum members who joined us in the support forum meeting.
- Donors of Gram Seva Foundation (U.S.A.) and Dr. Khushroo Patel and Shri Dineshbhai Shah and family for their active support.
- Patel Brothers (U.S.A.) for donation of 82000\$ for bhojnalay (Kitchen) fund.
- National Health Mission and RBSK team, Navsari for their support to DEIC services.
- Rotary Eye Institute for regular services to our Eye department.
- Tejas Hospital, Mandvi for the screening and management of eye problems in neonates.
- Dr. Snehal Kulkarni and Dr. Ritesh Sukharamwala (Surat) for their voluntary services for our cardiac patients.
- L&T, Hazira CSR team for Anti snake venom vials
- Shri P.J.Desai Trust and other donors for the poor patient relief fund
- Donors, well-wishers, and supporters like principal and staff of schools, students, various organizations and Dr. Girish Naik (Gadat), who have supported our mega health camps and eye camps every year and various organizations, who have supported our mega health camps and eye camps
- Shri D.D.Desai and Associates, Valsad for their services in Accounts and Audit.
- Techno Quest, Shri Himanshubhai Vashi and his team for technical support to all electrical work, their guidance and equipment for the organization.

- Credibility Alliance for evaluation of the organization.
- Great Place to Work for evaluation of staff in the organization
- Blood Donors and Blood Banks of Bilimora, Chikhli, Red Cross, Navsari and Shushrusha Blood Centre, Navsari.
- Other organizations like Gandevi Sugar factory, Manav Kalyan Trust (Navsari), Rotary Club Gandevi & Navsari, Leuva Patidar Samaj Trust (Navsari), Andheshwar Trust (Amalsad), Group of various Lions clubs of Surat for their continuous support to our activities.
- State Health Dept. Gandhinagar for their continuous support and motivation.
- District Collector and District Development Officer, staff of Officers and District Health Department, Asst. Charity Commissioner and Staff, DRDA, (Navsari District), District Police Dept, KVK and Agriculture University, Navsari, 108 Emergency ambulance service for their support to all our projects.
- Mamlatdars, Taluka Development officers, Block health Officers, Child Development Project Officers, ICDS staff, Primary Education Officers, Medical officers in PHCs and their staff, Talatis in Chikhli, Vansda, Gandevi and Mahuva blocks, for their support.
- Elected Members of Legislative Assemblies, and Members of District Panchayat, Taluka Panchayat and Gram Panchayat for their support
- Bank of Baroda - Khadsupa and Kharel branches, Axis Bank – Navsari, State Bank of India, Lunsikui Branch, HDFC Bank Chikhli, Gujarat Viduyat Company- Gandevi & Tankal, Telephone Exchange Gandevi , Kharel Post Office, Kharel Out Post, Police Station, Gandevi, Kharel Coperative Society, High Schools of Kharel and Tankal, L/T Kharel & Gandeva ITI, and Primary School of Khaparria, Toll Booth Staff, Boriach for their continued interest and participation in our activities.
- The editors and the correspondents of various newspapers of South Gujarat for covering the activities of the Trust and dissemination of information to the community.
- Our trustees, full-time and visiting doctors, consultants, our dedicated staff and volunteers without whom we could not achieve anything. Also all doctors giving their services in our medical camps.
- All known and unknown persons for supporting the organization.

*Be good, be kind, be humane and be
charitable,
Love your fellows, console the afflicted,
Pardon those who have done wrong.*

■ Maxim Gorky

Sewing class liberates a woman from the occupation of selling illegal alcohol.

Premilaben resident of Dang lived with her two children and worked as farm labourer. The meagre income of a farm labourer was not sufficient for the family and to supplement her income she started making and selling alcohol illegally (Gujarat is a dry state and alcohol is prohibited here). She earned about 1500 to 2000 rupees by selling alcohol. But Premilaben was not happy with this illegal work and wanted to change her source of income. She learnt that Gram Seva was starting a free sewing class in relative's village, which was about 21 kms away from her village. She decided to learn sewing and enrolled herself in the class. Premila had to travel daily 21kms. up and down by bus to attend the class. For this she would wake up at dawn, complete her household chores, walk for 2 to 3 kms. to catch her bus, walk for about 2 kms. again from the bus stand to her class. Thus under difficult circumstances, with diligence and hard-work she completed her 3 months sewing course. After completing her sewing course, she needed money to buy a sewing machine. She was working as farm labourer and saving some money for a sewing machine. In the meantime one of our donors was ready to give sewing machines to the women at half the price. Premila worked very hard and saved half the amount and got her sewing machine. Today Premila is earning her supplementary income by stitching clothes for her village people. Many women sell alcohol illegally due to lack of other sources of income. Premila's story tells these women that positive attitude, readiness to learn new skills, hard-work and diligence can help them leave this illegal work and start a new life.

*Life is pretty simple;
You do some stuff,
Most Fail, Some Work,
You do more of what works,
If it works big, others quickly copy it,
Then you do something else.
The trick is, 'doing something else'*

Mushroom Cultivation Training

Shikshan Parab Program at Village

Sangi Sewing Class Certificate distribution

◀ Celebration of International Women's day

▶ Visit by District Development Office, Navsari

▶ Mega General Medical Camp, Surgana

▶ Patient being checked up at General Camp

Fund Raising

This year fund raising activities were arranged by our Trustees and Directors of Gram Seva Foundation, Dr.Khushroo Patel and Mr.Dinesh Shah in Chicago, U.S.A. Our friends, Mr Bharat Kothari and Mr. Nalin Desai also supported our fund raising activity by planning events in Minneapolis and Boston respectively. Drs. Ashwin and Harsha Shah also attended these events and presented the different activities done by the organization. It is heartening that not only many well-wishers and donors who have been our support for these past 30 years attended these events but new friends and well-wishers also joined us and made these events successful. We thank all for their wholehearted support.

With Mr. Bharatbhai Kothari at Minneapolis

Fund Raising Program Chicago and Boston, U.S.A.

Donation from India April-2023 to March-2024

AUDITORS' REPORT

(Under sub section (2) of section 33 and 34 and Rule 19 of the Bombay Public Trust Act 1950)

Registration No. : E/896/Navsari
 Name of the Trust : GRAM SEVA TRUST
 For the year ended : 31st March 2024

We have audited the annexed Balance sheet of GRAM SEVA TRUST [(Reg.No E/896/ Navsari) situated at : N. H. No. 48, At & Post: Kharel, Dist: Navsari 396430] as on 31st March 2024 as well as Income and Expenditure Account for the year ended on 31st March 2024.

We have conducted our audit in accordance with auditing standards generally accepted in India. These standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

1. The accounts are maintained regularly and in accordance with the provisions of the Act and Rules
2. The receipts and disbursements are properly and correctly shown in the accounts
3. The cash balance and vouchers in the custody of the treasurer or trustee on the date of the audit were in agreement with the books of account
4. All books, deeds, accounts, vouchers or other documents & records required by us were produced before us.
5. A Register of movable and immovable properties has been maintained and the changes therein have been furnished to us.
6. All the necessary information required by us has been furnished to us by the Trustees personally whenever called upon
7. No property or funds of the Trust were applied for any object or purpose other than for the object or purpose of the Trust
8. There are no amounts which are outstanding for more then one year and written off
9. For repairs, tenders are not invited but for construction involving expenditure exceeding ` 5000/-, tenders are invited
10. The money of the trust have not been invested contrary to the provisions of section 35 of the Act.
11. There is no alienation of the immovable property contrary to provisions of Section 36
12. There are no cases of irregular, illegal or improper expenditure or failure or omission to recover money or other property belonging to the public trust or of loss or waste of money or other property thereof.
13. The provision of Budget to be filed under Rule in the form under Rule 16A is not applicable to the trust. However, the Trust has policy to prepare the Annual Budget.
14. The maximum and minimum number of trustees is maintained during the year.
15. The meetings are held as provided by such instrument.
16. The Minutes Books of proceedings of the meetings are maintained.
17. None of the Trustees has any interest in the investment of the trust.
18. None of the trustees is any debtor or creditor of the trust.
19. The irregularities pointed out by the Auditors in the accounts for the year under audit are have been duly complied with by the trustees.
20. There is no special matter, which we think fit or necessary to bring to the notice of the Deputy or Assistant Charity Commissioner

Gram Seva Trust
Dr. A. A. Shah
(Managing Trustee)

You can help us...

Gram Seva Trust strives for Health and Development of Rural Communities, especially, its weaker sections like women, children and the elderly.

The activities of the organization depend on donations and hence there is a perennial need of donations and help. We sincerely request you to join us in these activities through your voluntary donations in cash or kind for the following:

Permanent Donations Scheme

1. Poor Patients Relief Fund.
2. Eye Care Fund.
3. Bhojnalay(Kitchen) Fund.
4. Women Empowerment Fund.
5. Children's Welfare Fund
6. "Parodh Balawas" Funds
7. Anniversary Donations: these are donations on birth, death or any other anniversaries donated for treatment of food for the patients or food for the patients. The interest on the amount shall be utilised on the same day every year for the same purpose. ₹. 21000/- for this fund is accepted. The Donors name shall be displayed on a board that day.
8. ₹. 2100/- for One Meal for Hospital Patients & - ₹. 3500/- (47 U.S.\$) for Two Meals
9. ₹. 2100/- One Meal for "Parodh" Balawas children- ₹. 3500/- (47 U.S.\$) for Two Meals
10. ₹. 500/- for Milk for one time for "Parodh" Balawas Children or Hospital Patients & ₹.1000 (16 U.S.\$) for Two time.
11. Eye Camp- An eye camp and free cataract operations of all those coming in the camp are organised on donation of ₹. 40000/- (800 U.S.\$) and ₹. 1500/- (25 U.S.\$) for one cataract operation.
12. Support Education Expense of One Parodh Balawas Child: ₹.36000/year (600 U.S.\$/year)
13. General Donation

Interest shall be utilized from Corpus fund.

We also need donations for hospital and Balawas equipment. Kindly contact our office for more information.

We shall be happy to receive voluntary services in any of our activities like child education, skill development of youth and women, development of database, IEC materials, library, documentation etc.

Donations can be sent through cheques, demand drafts or direct transfer, in the name of Gram Seva Trust.

All donations are tax exempted under 80G in India.

Donations in U.S.A, can avail tax exemption if donated to Gram Seva Foundation a 501(c)(3) tax exempt charitable non profit.
